S.R. 834

R E S O L U T I O N

BE IT RESOLVED, BY THE Senate of the State of Texas, that Senate Rule 12.03 and 12.04, be suspended in part as provided by Senate Rule 12.08 to enable consideration of, and action on, the following specific matters which may be contained in the Conference Committee Report on House Bill 1.

1. Format Changes

For each agency and institution of higher education, the Conference Committee Report moves the informational item entitled “Supplemental Appropriations Made in Riders” from immediately following the “Schedule of Exempt Positions” to immediately after the grand total of all appropriations made in strategies.

For each general academic institution, service agency, health center, health science center, technical college and system office, the Conference Committee report combines all strategy appropriations into one single appropriation with the individual strategies shown, for information purposes only, as the first rider in the bill pattern. This format change does not affect any amounts of appropriations or any methods of financing for any appropriations.

To request authorization to expend available General Revenue Funds, an agency shall submit

a written request to the Legislative Budget Board and the Governor. At the same time, the agency shall provide a copy of the request to the Comptroller of Public Accounts. The request shall include the following information, by fiscal year:

Additional information requested by the Legislative Budget Board or the Governor should be provided in a timely manner. The request and information provided subsequently shall be prepared in a format specified by the Legislative Budget Board.

The request shall be considered to be approved unless the Legislative Budget Board or the Governor issue a written disapproval within 30 business days of the date on which the staff of the Legislative Budget Board concludes its review of the proposal to expend the funds and forwards its review to the Chair of the House Appropriations Committee, Chair of the Senate Finance Committee, Speaker of the House, and Lieutenant Governor. Any requests for additional information made by the Legislative Budget Board shall interrupt the counting of the 30 business days.

Sec. 32. Foster Care Rate Methodology.

- (a) **Evaluation.** Out of funds appropriated above to the Health and Human Services Commission (HHSC) in Strategy L.1.1, HHS System Supports, and in consultation with the Department of Family and Protective Services (DFPS), HHSC shall evaluate the methodology for establishing foster care rates to determine whether there is an alternative methodology that would increase provider capacity capable of delivering appropriate and evidence-based services, incentivize quality improvements, and maximize the use of federal funds. HHSC shall also evaluate cost-reporting requirements to identify opportunities to streamline reporting and ensure necessary information is included to support any alternative foster care rate methodology. HHSC may contract for the evaluation with a third party who has demonstrated capacity to develop residential child care rates and risk-based contracting in child welfare settings. HHSC and DFPS shall allow stakeholders the opportunity to provide input on the alternative rate methodology.

If an alternative is identified, HHSC and DFPS may implement the revised methodology if doing so would not increase General Revenue expenditures for foster care payments in Strategy B.1.9, Foster Care Payments.

- (b) **Rate Methodology.** It is the intent of the legislature that HHSC consider the following in evaluating a new rate methodology as outlined in subsection (a):
 - (1) Accounting for differences in the individualized needs of children as determined by a best practice needs assessment tool capable of predicting foster care costs reliable enough to inform rate setting, such as the Child and Adolescent Needs and Strengths (CANS) Assessments;
 - (2) Accounting for regional variation in costs, including differences in the individualized needs of children served in different regions and locally competitive wages to recruit and maintain qualified staff;
 - (3) Incentivizing placing children in the least restrictive environment that can best meet their needs;
 - (4) Maximizing the use of high-quality intensive home and community-based services;
 - (5) Maximizing the efficient and effective use of federal funds to improve capacity and address gaps in care, including:
 - (A) Increasing access to current Medicaid benefits such as mental health rehabilitation and targeted case management services;
 - (B) Identifying Medicaid benefits offered in other states for foster youth that decrease hospitalization and lower costs; and
 - (C) Improving reporting and tracking of data to maximize Title IV-E Reimbursements;
 - (6) Incorporating a viable and sustainable methodology for Community-based Care (CBC) rates, based on best practices and the experiences of other states;
 - (7) Providing opportunities, at least semi-annually, to adjust the rates based on demonstrated fluctuations across CBC regions and population needs;
 - (8) Including risk mitigation strategies that balance the risk to the state with the need to attract

and maintain viable Single Source Continuum Contractors for each CBC region, such as time-limited risk corridors; and

- (9) Being consistent with actuarially sound rate development principles to the fullest extent possible.
- (c) **Cost Reports.** It is the intent of the legislature that HHSC consider the following in evaluating the cost reports as outlined in subsection (a):
 - (1) Eliminating reporting requirements that are not required by state or federal law and are not currently being used by HHSC or DFPS to set rates;
 - (2) Adding detail where needed to align rates paid with the quality and intensity of services across levels of care; and
 - (3) Including additional or modified reporting requirements necessary to support implementation of any alternative rate methodology.
- (d) Not later than September 1, 2020, HHSC and DFPS shall report on the evaluation of the methodology and cost-reporting requirements to the Governor, Lieutenant Governor, Speaker of the House, Chair of the Senate Finance Committee, Chair of the House Appropriations Committee, permanent standing committees in the House of Representatives and the Senate with jurisdiction over health and human services, and the Legislative Budget Board.

Foundation School Program Funding. In addition to funds appropriated above, the Foundation School Program is funded with local school district tax revenue. Local school district tax rates are adopted by locally elected school board trustees. Local school property tax rates are not set by the Legislature.

Out of the funds appropriated above, and any other funds appropriated for the Foundation School Program during the 2020-21 biennium, a total of \$21,814,377,719 in fiscal year 2020 and \$22,029,766,408 in fiscal year 2021 shall represent the sum-certain appropriation to the Foundation School Program. The total appropriation may not exceed the sum-certain amount. This appropriation includes allocations under Chapters 41, 42 and 46 of the Texas Education Code.

Formula Funding: The Commissioner shall make allocations to local school districts under Chapters 41, 42 and 46 based on:

- (a) estimates of average daily attendance provided by the Texas Education Agency in March 2019;
- (b) local district tax rates as determined by the Legislative Budget Board;
- (c) final tax year 2018 property values;
- (d) and assumed increases in property values, and the estimates of local tax collections on which they are based, as estimated by the Comptroller of Public Accounts, of 5.76 percent for tax year 2019 and by 4.01 percent for tax year 2020.

The estimates identified in subsections (a) - (d) are projections provided by the Comptroller of Public Accounts and Texas Education Agency and used solely to determine initial state aid payments to school districts, and do not factor into the calculations of local tax base changes. Actual property value changes are determined by local appraisal districts.

To the extent that estimates provided for in subsections (a) - (d) above differ from a school district's actual average daily attendance, tax rates, property values, or local tax collections, the Commissioner shall settle-up with local school districts pursuant to Rider 7, Appropriation of Audit Adjustments, Settle-Up Funds and Attendance Credit Revenues and applicable provisions in Chapters 41, 42, and 46 of the Education Code.

For purposes of distributing the Foundation School Program basic tier state aid appropriated above and in accordance with §42.101 of the Texas Education Code, the Basic Allotment is established at \$5,140 in fiscal year 2020 and \$5,140 fiscal year 2021.

For purposes of distributing the Foundation School Program enrichment tier state aid appropriated above and in accordance with §41.002(a)(2) and §42.302(a-1)(1) of the Texas Education Code, the Guaranteed Yield is \$126.88 in fiscal year 2020 and \$135.92 in fiscal year 2021.

Included in amounts appropriated above and allocated by this rider to the Foundation School Program, \$23,750,000 in each fiscal year of the biennium out of the Foundation School Fund No. 193 is for the New Instructional Facilities Allotment under §42.158 of the Texas Education Code.

Included in amounts appropriated above and allocated by this rider to the Foundation School Program, \$37,500,000 in fiscal year 2020 and \$37,500,000 in fiscal year 2021 out of the Foundation School Fund No. 193 is for adjustments due to rapid property value decline pursuant to §42.2521 of the Texas Education Code.

From the amount appropriated above to the Texas Education Agency for Strategy A.1.1, FSP - Equalized Operations, in each year of the 2020-21 biennium, the Commissioner may not spend more than the amount that, together with all other amounts appropriated from the Foundation School Fund or another source of the Foundation School Program or for paying the costs of school property tax relief, is necessary to achieve a state compression percentage, as defined by Section 42.2516, Texas Education Code, of 66.67 percent and fully fund the school funding formulas under Chapters 41 and 42, Texas Education Code, without the prior approval of the Legislative Budget Board.

Notwithstanding any other provision of this Act, the Texas Education Agency may:

(a) make transfers as appropriate between Strategy A.1.1, FSP - Equalized Operations, and Strategy A.1.2, FSP - Equalized Facilities; and

(b) transfer Foundation School Program funds from fiscal year 2021 to 2020 to the extent necessary to avoid reductions in state aid as authorized by Texas Education Code §42.253(h).

The TEA shall notify the Legislative Budget Board and the Governor of any such transfers at least 15 days prior to the transfer.

The Texas Education Agency shall submit reports on the prior month's expenditures on programs described by this rider no later than the 20th day of each month to the Legislative Budget Board and the Governor's Office in a format determined by the Legislative Budget Board in cooperation with the agency.

Contingent on the Commissioner of Education identifying a budget surplus of Foundation School Program funds appropriated above in either fiscal year of the 2020-21 biennium, the Commissioner shall notify the Legislative Budget Board and the Office of the Governor in writing no later than 30 calendar days before taking any action pursuant to the Education Code §§42.2517, 7.062, 42.2521, 42.2522, 42.2523, 42.2524, or 42.2528.

Appropriations provided above in Strategy A.1.1, FSP-Equalized Operations, fully fund an estimated \$2,400,000,000 in projected student enrollment growth and \$2,200,000,000 in additional state aid above 2018-19 funding levels associated with the increase under current law in the Guaranteed Yield associated with the Austin Independent School District in accordance with §41.002(a)(2) and §42.302(a-1)(1) of the Texas Education Code.

O. Suspend Senate Rule 12.03 (4) to allow the Conference Committee to add text on any matter which is not included in either the House or Senate version of the bill to read as follows:

The Commissioner of Education shall allocate \$56,269,951 in fiscal year 2020 and \$53,786,956 in fiscal year 2021 to the Windham Schools based on contact hours for the best 180 of 210 school days in each year of the biennium. The contact hour rates for the 2020-2021 biennium are estimated to be: \$4.47826 for academic education, \$3.67445 for vocational education.

The Windham School District shall use funds appropriated above to serve those students whose participation will help achieve the goals of reduced recidivism and the increased success of former inmates in obtaining and maintaining employment. To achieve these goals, younger offenders with the lowest educational levels and the earliest projected release or parole eligibility dates should receive high priority. This policy shall not preclude the Windham School District from serving other populations according to needs and resources. For students who successfully complete the district's program during the 2018-19 biennium, the Windham School District shall report to the Eighty-seventh Legislature on the following: recidivism rates, employment rates, and attainment of GEDs, high school diplomas, professional certifications, and adult education literacy levels.

For projects related to revision of major state data systems, TEA shall notify the Legislative Budget Board and the Governor upon receipt of such funds of the amount received and the planned expenditures. It is the intent of the Legislature that projects funded in any part under the authority of this rider not be exempt from any requirements of the Quality Assurance Team.

The THECB shall allocate up to 50 percent in each fiscal year of the biennium and any unexpended amounts to community colleges.

- e. For THECB expenditure purposes, any funds not expended in fiscal year 2020 may be expended in fiscal year 2021 for the same purposes. If an institution does not meet targets for purposes of subsections b, c, and d, the institution shall return these unearned funds to the THECB by the date specified by THECB rule. The THECB shall reallocate these funds to other qualified programs. All institutions receiving funds shall submit to the THECB a detailed accounting of funds received, obligated or expended.

Sec. 26. General Academic Funding. Appropriations made in this Act for formula funding for general academic institutions will consist of four formulas and supplemental items.

1. **Instruction and Operation Formula.** The Instruction and Operations Formula shall provide funding for faculty salaries, including nursing, departmental operating expense, library, instructional administration, research enhancement, student services, and institutional support. These funds are distributed on a weighted semester credit hour basis. The rate per weighted semester credit hour for the 2020-21 biennium is \$55.85 in fiscal year 2020 and fiscal year 2021.

Weighting is determined by the following matrix:

	Lower Div.	Upper Div.	Masters	Doctoral	Special Professional

Nursing	1.37	2.04	2.74	10.29	
Developmental Ed	1.00				
Veterinary Medicine					24.58

- Teaching Experience Supplement.** For the 2020-21 biennium, an additional weight of 10 percent is added to lower division and upper division semester credit hours taught by tenured and tenure-track faculty. Furthermore, it is the intent of the Legislature that the weight shall increase by 10 percent per biennium, up to 50 percent.
- Infrastructure Support.** Funding associated with plant-related formulas and utilities shall be distributed by the infrastructure support formula which is driven by the predicted square feet for universities' educational and general activities produced by the Space Projection Model developed by the Coordinating Board. The portion of the formula related to utilities is adjusted to reflect differences in unit costs for purchased utilities, including electricity, natural gas, water and wastewater, and thermal energy. The average rate per square foot is \$5.47 in fiscal year 2020 and fiscal year 2021.
- Supplemental Non-formula Items.** Institutions shall receive a direct reimbursement as applicable for staff group insurance (other educational and general income portion), workers' compensation insurance, unemployment compensation insurance, public education grants, organized activities, scholarships, tuition revenue bond payments, and facility lease charges. Institutions may receive an appropriation for non-formula support items. Revenue derived from board authorized tuition would still be appropriated to the institutions levying the additional charges.
- The General Academic Instruction and Operations and Infrastructure formulas shall incorporate the Higher Education Coordinating Board's October 2006 recommendations for mission-specific formula funding for Texas A&M University at Galveston.

These formulas and supplemental items shall be reviewed and updated by study committees appointed by the Higher Education Coordinating Board and recommended changes forwarded to the Legislature, Legislative Budget Board, and Governor by June 1, 2020. The study committees shall review the expenditure study that is used for the cost matrix above, including determining and reviewing the growth of costs affiliated with higher education and its consequent impact on higher education institutions, and make recommendations for improvements to better reflect the actual expenditures of the institutions. The study committee recommendations shall be forwarded to the Legislative Budget Board along with the recommendations on formulas and supplemental items.

The formula advisory committees shall also review the Space Projection Model as it relates to distance education courses, including the different physical space and technology needs between traditional courses, online courses, and distance education courses, as well as information on associated costs of each course type, and recommend changes to the Space Projection Model to the Legislative Budget Board and Governor by June 1, 2020.

B. Suspend Senate Rule 12.03 (4) to allow the Conference Committee to add text on any matter which is not included in either the House or Senate version of the bill to read as follows:

Sec. 27. Health Related Institutions Funding. Appropriations made in this Act for formula funding for health related institutions shall consist of four formulas plus supplemental non-formula items.

- Instruction and Operations Support Formula.** The Instruction and Operations Support Formula shall provide funding on a per student or full-time equivalent basis. Funding for each instructional program is based on the following funding weights per student, with a base value per weighted student of \$9,622 in fiscal year 2020 and fiscal year 2021:

<u>Program</u>	<u>Weight Per Student</u>
----------------	---------------------------

Allied Health	1.000
Biomedical Science	1.018
Nursing	1.138
Pharmacy	1.670
Public Health	1.721
Biomedical Informatics	1.750
Dental	4.601
Medical	4.753

Instructional programs at remote locations and the main campus at The University of Texas Health Science Center at Tyler with enrollments of less than 200 students at individual campuses shall receive additional funding to compensate for the diseconomies of scale. The minimum formula shall generate additional funding per student, on a sliding scale, with programs with small enrollments receiving more additional funding per student.

2. **Infrastructure Support Formula.** Funding to the health related institutions for plant support and utilities shall be distributed by the infrastructure support formula which is driven by the predicted square feet for the health related institutions produced by the Space Projection Model developed by the Texas Higher Education Coordinating Board. The rate per square foot is \$6.14 in fiscal year 2020 and fiscal year 2021 for all health related institutions.

Because the Space Projection Model does not account for hospital space, separate infrastructure funding for hospital space at The University of Texas Medical Branch at Galveston, The University of Texas M.D. Anderson Cancer Center, and The University of Texas Health Science Center at Tyler shall be included in the total funding for hospital and center operations.

3. **Research Funding.** The health related institutions shall retain 100 percent of indirect research costs recovered on grants. Each institution also receives research enhancement funding of \$1,412,500 plus 1.18 percent in fiscal year 2020 and fiscal year 2021 of its research expenditures as reported to the Texas Higher Education Coordinating Board.
4. **Research at Clinical Partners.** Research conducted by faculty of a health related institution under a contract with a clinical partner shall be considered in the formula calculations for the Research Enhancement and E&G Space Support strategies as defined under Article III, Special Provisions Relating Only To State Agencies of Higher Education, Section 27, subsection (2) Infrastructure Support Formula and Sec. 27, subsection (3) Research Funding.
5. **Graduate Medical Education Formula.** The Graduate Medical Education Formulas shall provide funding on a per medical resident basis. Funding is based on a base value of \$11,940 per medical resident in an accredited program. Appropriations for Graduate Medical Education for fiscal year 2020 and fiscal year 2021 are \$5,970 per resident.
6. **Health Related Institution Graduate Medical Education.** The funds appropriated above in each of the health related institutions bill pattern titled Graduate Medical Education (GME) shall be spent to increase the number of resident slots in the State of Texas as well as faculty costs relating to GME. In addition, each health related institution shall work with the Higher Education Coordinating Board to develop new performance measures relating to increasing the number of resident slots in the State of Texas.
7. **Supplemental Non-formula Items.** Institutions shall receive a direct reimbursement as applicable for staff group insurance, workers' compensation insurance, unemployment insurance, public education grants, medical loans, tuition revenue bond payments, and facility lease charges. Institutions may receive an appropriation for non-formula support items and hospital and clinic operations.
8. **Formula Study Committees.** These formulas shall be reviewed and updated by study committees appointed by the Texas Higher Education Coordinating Board and recommended changes forwarded to the Legislature, Legislative Budget Board, and Governor by June 1, 2020.
9. **Mission Specific Support.** The University of Texas M.D. Anderson Cancer Center and The University of Texas Health Science Center at Tyler do not provide formal medical education which qualifies for instruction support under subsection 1 above. Therefore, funding allocated to these institutions shall be based on the following criteria:
 - a. The General Revenue Operations formula funding provided to The University of Texas M.D. Anderson Cancer Center in Strategy A.2.1, Cancer Center Operations, shall be based on the total number of Texas cancer patients served at The University of Texas M. D.

Anderson Cancer Center. General Revenue appropriations for fiscal year 2020 and 2021 shall be based on the number of total Texas cancer patients served in 2018. The rate per patient shall be \$1,666 in fiscal year 2020 and fiscal year 2021 for Strategy A.2.1, Cancer Center Operations. For formula funding purposes, the amount of growth in total funding from one biennium to another may not exceed the average growth in funding for Health Related Institutions in the Instruction and Operations formula for the current biennium.

- b. The University of Texas Health Science Center at Tyler has a statutory mission to conduct research, develop diagnostic and treatment techniques, provide training and teaching programs, and provide diagnosis and treatment of inpatients and outpatients with pulmonary, respiratory and other diseases of the chest. General Revenue funds appropriated to The University of Texas Health Science Center at Tyler in Strategy A.1.4, Chest Disease Center Operations, shall be based on the number of cases in which disease diagnoses are treated by The University of Texas Health Science Center at Tyler. General Revenue appropriations for fiscal year 2020 and 2021 shall be based on the number of such cases treated in fiscal year 2018. The rate per case for fiscal year 2020 and 2021 shall be \$189. For formula funding purposes, the amount of growth in total funding from one biennium to another may not exceed the average growth in funding for Health Related Institutions in the Instruction and Operations formula for the current biennium.
- c. The University of Texas M.D. Anderson Cancer Center and The University of Texas Health Science Center at Tyler shall submit to the Legislative Budget Board, Governor, and Texas Higher Education Coordinating Board a copy of the appropriate reports discussed above and supporting documentation which provides the necessary information to calculate the formula allocations in subsections (a) and (b) above.

IV. INFORMATION RESOURCES PROVISIONS

A. Suspend Senate Rule 12.03 (4) to allow the Conference Committee to add text on any matter which is not included in either the House or Senate version of the bill to read as follows:

Sec. 9.01. Purchases of Information Resources Technologies.

- (a) In this section:
 - (1) "Information resources," "Information resources technologies," and "Major information resources project" have the meanings provided by §2054.003, Government Code.
 - (2) "Quality Assurance Team" and "QAT" means the quality assurance team established under §2054.158, Government Code.
 - (3) "Phases" of the development of a major information resources project include planning, systems analysis and requirements, systems design, development, integration and testing, implementation, and operations and maintenance.
- (b) A state agency may not expend appropriations for information resources technologies unless the information resources technologies are in a plan approved by the Legislative Budget Board.
- (c) A state agency shall provide to QAT, within 10 business days of receipt of a request from QAT, any verification and validation report, or quality assurance report required to be produced for a major information resources project.
- (d) Prior to the start of vendor negotiations with regards to a major information resources project with an initial value expected to exceed \$10 million, a state agency shall submit to QAT a draft copy of the contract containing the proposed terms. QAT may provide the state agency with recommendations pertaining to the draft copy of the contract. Upon conclusion of vendor negotiations, a state agency shall submit the final negotiated copy of the contract to QAT for review. QAT shall either provide the state agency with recommendations pertaining to the final negotiated copy of the contract or waive review. A state agency shall not submit the final negotiated copy of the contract to the vendor for the purpose of execution prior to receiving either QAT's recommendations or waiver.

QAT may conduct a preliminary review of the draft contract prior to vendor negotiation and, based on this review and QAT's determination that the agency has developed a risk mitigation strategy sufficient to protect the state's interests, may waive further review and the approval requirement of this section.

- (e) Prior to amending a contract associated with any phase of the development of a major

information resources project, when the expected total value of the contract subsequent to the amendment exceeds the total value of the initial contract awarded by 10 percent or more, the agency shall notify the Governor, Lieutenant Governor, Speaker of the House, Senate Finance Committee, House Appropriations Committee, and QAT.

- (f) (1) An amendment to a major information resources project or contract associated with any phase of the development of a major information resources project with a total initial project or contract value that exceeds \$5 million must be reported to QAT prior to execution when:
 - (A) the expected total value of the project or contract subsequent to the amendment exceeds the total value of the initial project or contract awarded by 10 percent or more;
 - (B) the expected total value of an element in the project or contract subsequent to the amendment exceeds the total value of the same element in the initial project or contract awarded by 10 percent or more; or
 - (C) the amendment requires the vendor to provide consultative services, technical expertise, or other assistance in defining project scope or deliverables.
- (2) If this requirement is not met, QAT may provide written notification to the comptroller, the governor, and/or the Legislative Budget Board detailing the requirements that the agency did not meet and any recommendations to address identified risks related to the project or contract. QAT, as authorized by Government Code, Section 2054.1181, may require the agency to:

- (h) If a state agency cancels a contract for development of a major information resources project, which if amended would be subject to the requirements of Subsection (f), and issues a solicitation for identical or similar goods and/or services for development of the same project, then the contract must be submitted to QAT prior to execution.
- (i) QAT may waive the requirements with regards to a contract under Subsection (d) or an amendment under Subsection (f) by providing notice of waiver to the state agency required to submit contract documents under the respective Subsections.

 - (2) "Quality Assurance Team" and "QAT" means the quality assurance team established under §2054.158, Government Code.
- (b) A state agency may not expend appropriated funds for a major information resources project unless the project has been reviewed by QAT and approved by the Legislative Budget Board in the agency's biennial operating plan. QAT shall make recommendations based on an analysis of the major information resources project's risk. QAT may request any information necessary to determine a major information resources project's potential risk. QAT may waive the major information resources project review requirements for a project.
- (c) (1) QAT may require independent verification and validation services of all major information resources projects projected to result in more than \$10 million of overall lifetime expenditures. In addition, QAT may require independent project monitoring, project status reporting, project expenditure reporting, or any additional information necessary to assess

a major information resources project's on-going potential for success.

- (2) A state agency must notify QAT when the agency advertises a request for proposal, request for bid, or other similar process common to participation in the competitive bidding processes of a major information resources project. The corresponding agency requisition number must be provided at the time of notification.
- (3) A state agency must notify QAT within 10 business days when the agency awards a contract for a major information resources project that is equal to or greater than \$10 million for QAT review.
- (4) After a major information resources project has been completed, QAT may also require an agency to submit a project post-implementation evaluation report to determine if the project met its planned objectives.
- (5) QAT may take any additional actions or request information as specified in §2054.1181, Government Code.
- (6) Without regard to the source of funds associated with the expenditures for a major information resources project and without regard to the method of finance of an appropriation associated with a project, QAT may make the requests and impose the requirements or additional actions provided by this section on all major information resources projects regardless of whether undertaken entirely or partially by:
 - (A) outsourcing or contracting of any sort; or
 - (B) agency employees.
- (d) On request by QAT, the State Auditor's Office shall provide audit and review of:
 - (1) the major information resources projects;
 - (2) the information provided by the agencies; and
 - (3) project management policies and practices.
- (e) QAT may request the assistance of the Comptroller in regard to the accuracy of major information resources project expenditures and compliance with this Act.
- (f) The State Auditor's Office may:
 - (1) provide an independent evaluation of the post implementation evaluation review process of a major information resources project to ensure the validity of its results; and
 - (2) send the evaluation to the Legislative Audit Committee.
- (g) The Department of Information Resources may issue guidelines for software development, quality assurance, and the review of major information resources projects.
- (h) QAT shall require each affected agency to:
 - (1) quantitatively define the expected outcomes and outputs for each major information resource project at the outset;
 - (2) monitor cost; and
 - (3) evaluate the final results to determine whether expectations have been met.
- (i) After a major information resources project has been completed, QAT may also require a project demonstration to determine if the project is functioning as intended.

C. Suspend Senate Rule 12.03 (4) to allow the Conference Committee to add text on any matter which is not included in either the House or Senate version of the bill to read as follows:

Sec. 9.11. Staff Telecommunications Survey and Analysis. Out of funds appropriated in this Act, each state agency shall survey its employees with regards to telecommunications preferences. The survey shall solicit information pertaining to the necessity of retaining multiple forms of telecommunications hardware, voicemail and other supplemental features for which the agency is

assessed a premium. The employees to be surveyed shall consist of individuals assigned a dedicated landline telephone, mobile phone, or VoIP system. In addition to conducting the survey, each state agency shall analyze the cost savings achieved, and/or projected to be achieved, by the agency as a direct result of implementing the preferences expressed in the survey. The survey results and analysis shall be reported to the Department of Information Resources by September 1, 2020, in a format prescribed by the department.

D. Suspend Senate Rule 12.03 (4) to allow the Conference Committee to add text on any matter which is not included in either the House or Senate version of the bill to read as follows:

- (b) **Statewide Behavioral Health Coordinating Council.** Each agency identified in subsection (a) of this provision, with the exception of the Texas Higher Education Coordinating Board and Article VIII, shall designate an individual to serve as a member of the statewide behavioral health coordinating council, established by Article IX, Section 10.04(b), 2016-17 General Appropriations Act (GAA), Eighty-fourth Legislature, 2015, and may use funds appropriated by this Act to support that council. In addition to the agencies identified in subsection (a) of this provision, the Texas Department of Housing and Community Affairs, the Texas Workforce Commission, and the Texas Education Agency shall each designate an individual to serve as a representative on the council. The Texas Mental Health Care Consortium shall designate an individual to serve as a representative on the council, contingent upon the enactment of Senate Bill 10, relating to the creation of the Texas Mental Health Care Consortium, or similar legislation by the Eighty-sixth Legislature, Regular Session. Any other state agency or institution that receives funding in this Act and provides

specific behavioral health services may participate in the meetings and discussions of the coordinating council. The Mental Health Statewide Coordinator at the Health and Human Services Commission (HHSC) shall serve as chair of this council. The coordinating council shall meet at least once quarterly during fiscal years 2020 and 2021, or more frequently if determined necessary by the Mental Health Statewide Coordinator at HHSC.

HHSC shall require certain community collaboratives that receive state grant funding to present twice annually on the impact each collaborative has had on project implementation and mental health outcomes on the population served by the grant funding. These community collaboratives shall include community collaboratives as defined by Government Code, Chapter 539; community recipients of a grant for veterans' mental health pursuant to Government Code, Section 531.0092; recipients of a grant through the Mental Health Grant Program for Justice-Involved Individuals; and recipients of a grant through the Community Mental Health Grant Program. It is the intent of the Legislature that these presentations serve as an opportunity to increase collaboration for the effective expenditure of behavioral health funds between state and local entities. No provision of this Act may be construed as granting the statewide behavioral health coordinating council authority over local projects implemented by the collaboratives listed above.

- (c) **Statewide Behavioral Health Strategic Plan.** The purpose of the statewide behavioral health coordinating council shall be to implement the five-year Statewide Behavioral Health Strategic Plan published May 1, 2016 per Article IX, Section 10.04(b), 2016-17 GAA, Eighty-fourth Legislature, 2015. The Statewide Behavioral Health Coordinating Council shall submit an annual report to the Governor, and the Legislative Budget Board including the progress of the strategic plan's implementation no later than December 1 of fiscal years 2020 and 2021. The report shall include coordinating council agency participation and how the strategic plan's implementation serves to coordinate programs and services to eliminate redundancy, utilize best practices in contracting standards, perpetuate identified, successful models for mental health and substance abuse treatment, ensure optimal service delivery, and identify and collect comparable data on results and effectiveness. The coordinating council shall annually update the inventory of behavioral health programs and services. The inventory shall describe how the identified programs, services, initiatives, and expenditures further the goals of the Statewide Behavioral Health Strategic Plan. HHSC shall make available the five-year strategic plan update and the inventory of programs on HHSC's website no later than December 1 of each year.

The Council shall also collaborate with the Board of Pharmacy and the Medical Board to create a sub-plan related to substance abuse. The sub-plan shall include challenges of existing prevention, intervention, and treatment programs, evaluation of substance use disorder prevalence, service ability, gaps in current services, and strategies for working with state agencies to expand treatment capacity.

- (d) **Coordination of Behavioral Health Expenditures.** The coordinating council shall submit to the Executive Commissioner of HHSC for approval a coordinated statewide expenditure proposal for each agency, which shall include the appropriation amounts identified in subsection (a) of this provision. The expenditure proposal shall describe how the identified appropriations at each agency or institution would be spent in accordance with, and to further the goals of the approved statewide behavioral health strategic plan. HHSC shall submit the coordinated statewide behavioral health expenditure proposal to the Legislative Budget Board by September 1, 2019 for fiscal year 2020 and by July 1, 2020 for fiscal year 2021. The plan shall be considered to be approved unless the Legislative Budget Board issues a written disapproval by November 1, 2019 for fiscal year 2020, or by September 1, 2020 for fiscal year 2021.

Notwithstanding any other appropriation authority granted by this Act, the Comptroller of Public Accounts shall not allow the expenditure of General Revenue-Related funds identified in subsection (a) by a particular agency if the Legislative Budget Board provides notification to the Comptroller of Public Accounts that the agency's expenditure proposal has not satisfied the requirements of this provision. If fiscal year 2020 or fiscal year 2021 General Revenue-Related funds are used to provide services required by federal law, are related to court-ordered treatment, or required as the result of administrative proceedings, the funding for these services shall still be included in the proposal, but these funds shall not be contingent upon approval.

The coordinated expenditure proposal shall be developed in a format specified by the Legislative Budget Board, and shall, at a minimum, include expenditures related to each program identified in the program inventory required by subsection (c) of this provision, identified by fund type. Behavioral health-related Medicaid expenditures shall also be

included as a separate line item for each agency.

C. Suspend Senate Rule 12.03 (4) to allow the Conference Committee to add text on any matter which is not included in either the House or Senate version of the bill to read as follows:

Sec. 10.06. Cross-Agency Coordination on Healthcare Strategies and Measures.

- (a) Out of funds appropriated elsewhere in this Act, the Health and Human Services Commission shall coordinate with the Department of State Health Services, the Employees Retirement System of Texas, the Texas Department of Criminal Justice, and the Teacher Retirement System to compare healthcare data, including outcome measures, to identify outliers and improvements for efficiency and quality that can be implemented within each healthcare system. To administer the data comparison, HHSC shall expend \$2.5 million per year with the Center for Healthcare Data at the University of Texas Health Science Center at Houston (UT Data Center) for data analysis, including individual benchmark and progress data for each agency. As applicable, agencies shall collaborate on the development and implementation of potential value-based payment strategies, including opportunities for episode-based bundling and pay for quality initiatives.
- (b) The agencies shall meet quarterly to carry out coordination activities as described above.
- (c) The agencies shall submit a report to the Legislative Budget Board and the Governor no later than September 1, 2020 describing coordination activities, efficiencies identified, individual agency policies and practices that have been improved due to the application of the data, and recommendations on future ways to reduce cost and improve quality of care in each healthcare system.
