Trusteed Programs Within the Office of the Governor Selected Fiscal and Policy Issues - House

1. **Strategic Fiscal Review.** The agency is included in the Strategic Fiscal Review (SFR). Please refer to the SFR packet for specific information and findings.

Significant observations and considerations include:

- The primary function of the Trusteed Programs Within the Office of the Governor is to provide grants for various programs, including: Disaster and Deficiency funds, Criminal Justice grants, and Economic Development incentives. The Trusteed Programs Within the Office of the Governor is also assigned operations of two former state agencies: the Office of State-Federal Relations and the Texas Department of Economic Development.
- The agency's thirty-three programs are spread across these three categories with agency budget allocations in the following percentages for the 2016-17 biennium recommendations:
 - Grant Assistance and Programs – 8%;
 - Criminal Justice Activities – 50%; and
 - Economic Development and Tourism – 42%.

The agency provided a funding alternative to serve all eligible applicants to the film incentive program. This would require an increase of funding of approximately \$106.4 million in the 2016-17 biennium and 4.0 new FTEs to administer additional awards. The agency also provided a funding alternative option to increase coordination and speed of the incentive application and approval process in the Business Development program. The agency requested \$250,000 per fiscal year and 5.0 FTEs to focus specifically on due diligence and research for incentive applications. These alternatives are not included in recommendations.

Section 3

2. **Budget Structure.** Recommendations include changes to the agency's 2016-17 budget structure previously approved by our office and the Governor's Office of Budget, Planning and Policy. Changes to the budget structure group common Items of Appropriation together in three separate Goals within the budget structure to provide greater detail and transparency of the activities of the Truusted Programs. These Goals and Items of Appropriation are as follows:

Goal A, Grant Assistance and Programs – includes the Items of Appropriation related to Disaster Funding; Agency Grant Assistance; Disability Issues; Women's Group; and State-Federal Relations.

Goal B, Criminal Justice Activities – includes the Items of Appropriation related to Criminal Justice; County Essential Service Grants; and Homeland Security grant activities.

Goal C, Economic Development and Tourism – includes the Items of Appropriation related to Economic Development; Tourism; Film and Music Marketing; Texas Enterprise Fund; Texas Emerging Technology Fund; and Military Preparedness grant and loan activities. Within Goal C, Economic Development and Tourism activities are separated into two strategies to distinguish the missions of the overall activities in each strategy.

Economic Development activities provide assistance, incentives and loans for economic development with a goal of creating jobs and investments in Texas communities. These programs include the Economic Development Bank, Small Business Advocacy, Texas Business Development, and the Office of Aerospace, Aviation, and Defense.

Tourism activities primarily promote Texas through marketing campaigns domestically and internationally to develop tourism related jobs and revenue.

Section 3

3. **Disaster Grants, Agency Grants and Emergency Appropriations.** Recommendations include \$24.8 million in General Revenue to provide grants for certain disasters and \$2.3 million in General Revenue for assistance grants to state agencies in the 2016-17 biennium.

Recommendations include separating Rider 2. Emergency and Deficiency and Disaster Grants, into two riders to provide clarification of the Governor's appropriation authority to address disasters, certain emergencies, and to provide agencies funding to address deficiencies during the interim.

Rider 2, Disaster and Deficiency Grants would clarify the use, purpose, restrictions and authority for the funds that are appropriated to the Governor in new strategies A.1.1, Disaster Funding, and A.1.2, Agency Grant Assistance. Government Code §403.075 limits agency deficiency grants up to \$200,000 for deficiencies that occur during the interim. The revised rider would clarify the authority to provide \$200,000 per agency, per event. The revised rider would also require the Governor to notify the Legislative Budget Board of deficiency and disaster grants provided to state agencies.

Rider 3, Governor's Emergency Appropriation Authority, would define the authorization, process, and funds that can be transferred for emergency appropriations made by the Governor from funds appropriated to other agencies as allowed by Government Code §§401.061-401.065. The rider would appropriate amounts necessary from General Revenue–Dedicated Funds and Other Funds to address emergencies governed by Government Code §§401.061-401.065. The rider also requires approval by the Legislative Budget Board.

Recommendations do not provide carry forward authority across biennia for these items to allow the legislature to consider and decide the appropriation authority for these activities.

4. **Governor's Proposal to Eliminate Emerging Technology Fund.** In January 2015, Governor Abbott proposed the elimination of the Emerging Technology Fund and using 50 percent of the unexpended balances to establish a new initiative to provide matching funds for Texas higher education institutions to recruit prestigious, nationally-recognized researchers to their faculties. The other 50 percent of unexpended balances would be reallocated to the Texas Enterprise Fund. The existing portfolio would be transferred to the Texas Treasury Safekeeping Trust Company, administered by the Comptroller of Public Accounts. To implement this proposal, a change in statute would be required.
5. **Budget Authority.** Recommendations limit certain budget flexibilities and remove exemptions from certain general provisions of the General Appropriations Bill to allow the legislature to consider continuation of this authority. Recommendations delete the following riders from the agency's bill pattern:
 - Rider 4, Unexpended Balances Within the Biennium. Article IX, §14.05, Unexpended Balance Authority Between Fiscal Years within the Same Biennium, allows the agency to carry forward balances between fiscal years with Legislative Budget Board approval.
 - Rider 11, Appropriation of Unexpended Balances, Revenue, and Interest Earnings.

Section 3

6. **Unexpended Balance Authority.** Recommendations do not continue carry forward authority for unexpended balances within the biennium for all strategies. In July 2014, the agency reported in its 2014-15 Base Reconciliation carry forward of approximately \$211.2 million (\$78.3 million in General Revenue, \$120.0 million in General Revenue – Dedicated, and \$12.9 million in Other Funds) from fiscal year 2014 into fiscal year 2015.

Recommendations do not continue carry forward of unexpended balances across biennia (from fiscal year 2015 to fiscal year 2016). The agency reported in its 2014-15 Base Reconciliation carry forward of approximately \$357.6 million (\$77.9 million in General Revenue, \$225.0 million in General Revenue – Dedicated, and \$54.7 million in Other Funds) from fiscal year 2013 into the 2014-15 biennium in the following programs and methods of finance as allowed by Rider 12, Appropriations of Unexpended Balances, Revenue, and Interest Earnings, in the agency’s bill pattern:

Carry Forward of Unexpended Balances

General Revenue	UB Carry Forward Amount FY13 to FY14	UB Carry Forward Amount FY14 to FY15
Economic Development and Tourism (\$21.2 million in General Revenue - Hotel Occupancy Tax Deposits Account No. 5003, and \$5.3 in General Revenue)	\$26.5 million	\$19.0 million
Disaster Funding	\$20.2 million	\$25.0 million

Total	\$357.6 million	\$211.2 million

Section 3

7. **Texas Enterprise Fund and Emerging Technology Fund Contingency Riders.** Rider 22, Contingency for Texas Enterprise Fund and Rider 23, Contingency for Emerging Technology Fund provide that appropriations from GR-Dedicated Texas Enterprise Fund Account No. 5107 and GR-Dedicated Emerging Technology Fund Account No. 5124 are contingent on the enactment of reform legislation to the respective incentive programs. A technical adjustment will be made to correct the language in the riders to refer to the appropriated unexpended balances as “not to exceed” amounts.
8. **Border Prosecution Grants.** Recommendations for the 2016-17 biennium include the agency’s exceptional item request of \$6.0 million to fund Border Prosecution Grants, but out of GR-Dedicated Criminal Justice Planning Account No. 421, rather than General Revenue as requested by the agency.

During the current biennium, the Trusteed Programs Within the Office of the Governor was appropriated \$6.8 million out of GR-Dedicated Operators and Chauffeurs Account No. 099 to administer the Border Prosecution Grants. Prior to the 83rd Legislative Session, the LBB analyzed the GR-Dedicated Fund 099 balance to determine whether appropriated levels could be sustained. Based on the Comptroller’s Biennial Revenue Estimate we recommended that Trusteed Programs Within the Office of the Governor receive an appropriation. However in fiscal year 2013, the LBB determined that the Department of Public Safety, which administers the account, had significantly underestimated the amount of benefits paid out of the account and had miscoded certain transactions as transfers which created an inaccurate estimate. As a result of these actions the account balance was not sufficient to support the appropriations for fiscal years 2014 and 2015.

9. **Texas Military Revolving Loan Program.** Recommendations include Rider 11, Texas Military Revolving Loan Program, relating to the authority to issue \$200.4 million in General Obligation Bond Proceeds for the Texas Military Revolving Loan program (Article III, Sec. 49(n) of the Texas Constitution) for loans to defense communities for economic development projects at the Texas Military Preparedness Commission. The Commission does not anticipate issuing any of the remaining \$200.4 million in bond authority during the 2014-15 or 2016-17 biennia.

Debt service related to these bonds is paid out of General Revenue – Dedicated Military Revolving Loan Account No. 5114, which is reimbursed from loan repayments and interest earnings and is not used to certify the appropriations bill.

Recommendations for the Texas Public Finance Authority continue estimated appropriation authority for debt service out of GR-Dedicated Texas Military Value Revolving Loan Account No. 5114 for the remaining general obligation bond authority for the Texas Military Value Revolving Loan program.

Section 3

10. **Federal Criminal Justice Funding.** Recommendations reflect the agency's estimate for criminal justice related federal grant awards. The Prison Rape Elimination Act of 2003 (PREA) requires that states adopt national standards to eliminate sexual abuse in confinement facilities by May 15, 2014. Some of the PREA standards include requirements for the placement of juveniles in adult facilities, staff training on topics related to preventing, detecting, and responding to sexual abuse, and the screening of inmates during intake for risk of being sexually abused by other inmates or sexually abusive toward other inmates.

Beginning in federal fiscal year 2014, states are subject to a penalty of a percentage of Department of Justice (DOJ) grant funds intended for prison purposes for noncompliance. For federal fiscal year 2014, this includes 5.0% of the state share of the Edward Byrne Memorial Justice Assistance Grants, 5.0% of the state share of the Juvenile Justice and Delinquency Prevention's Title II Part B Formula Grants, and 4.75% of the Services, Training, Officers, and Prosecutors (STOP) Violence Against Women Formula Grants.

In March 2014, Governor Perry communicated to U.S. Attorney General Holder that Texas will not comply with PREA. As a result, Texas will likely lose a percentage of DOJ grant funds intended for prison purposes beginning in state fiscal year 2015. The actual impact to amount of criminal justice grants awarded to Texas is unknown since the award amounts have not been determined. Based on the agency's estimates for awards in the 2016-17 biennium, a 5% penalty would reduce the available grant funds by \$2.78 million for the biennium.

11. **Spaceport Incentives.** Recommendations reflect a decrease of \$15.0 million in General Revenue for a one-time transfer to the Spaceport Trust Fund, outside the treasury for aerospace incentives administered by the Trusteed Programs Within the Office of the Governor. Of this amount, \$5.0 million was contingent on SpaceX locating a spaceport in the state. Upon certification of SpaceX's commitment to locate in the Brownsville area in August of 2014, \$13.0 million was transferred from the Spaceport Trust Fund to the Cameron County Spaceport Development Corporation. SpaceX received an additional \$2.3 million from the Enterprise Fund. In February of 2014, the Midland Spaceport Development Corporation was awarded the remaining \$2.0 million from the Spaceport Trust Fund. The Federal Aviation Administration (FAA) approved the Commercial Space Launch Site License (Spaceport) for the Midland International Airport (MAF) in September of 2014. There is no indication that this appropriation was intended to be ongoing.
12. **British Petroleum (BP) Oil Spill Grant.** In September 2010, BP awarded a \$5.0 million grant to Texas for recovery from the Deepwater Horizon oil spill that occurred in April 2010. The monies were deposited to General Revenue - BP Oil Spill Response Grant Account No. 5149 for expenditure by the Trusteed Program Within the Office of the Governor. Of this amount, \$1.0 million was transferred to the Texas Commission on Environmental Quality (TCEQ) in September 2013. According to staff at the Governor's office, the remaining \$4.0 million is intended to be spent on a website and marketing for the recovery process in fiscal year 2015. In January 2015, the Governor's Office awarded the remaining \$4.0 million to support two Centers of Excellence led by the University of Houston and to Texas A&M University-Corpus Christi. The research centers were formed to implement the federal RESTORE Act. Under the RESTORE Act, Gulf states share 2.5 percent of the Gulf Coast Restoration Trust Fund equally for research grants at the eligible centers. In addition to the grant from BP, the U.S. Department of the Treasury estimates \$4.0 million in federal funds will be available in March 2015 for the Texas Centers of Excellence. The total amount of federal funds available to Texas would be affected depending on the outcome of the final phase of the BP trial which started in January 2015.

13. **Sunset Review.** The Committee on People with Disabilities was reviewed by the Sunset Commission. The Sunset Commission approved staff recommendations to continue the agency for 12 years in December 2014. Sunset staff budget related recommendations include:
- 1) Direct the Governor's Office and the committee to work together to re-evaluate the amount of funding necessary for the committee to carry out its functions, and to ensure its legislative appropriations request and budget reflect the actual fiscal needs of the committee.
 - 2) The Senate Finance and House Appropriations Committees should consider using the committee's large unexpended balance as a method of finance for a portion of the committee's appropriations for fiscal years 2016–2017.

HB 1 includes a direct appropriation at 2014-15 spending levels with no carry forward authority of unexpended balances across biennia.

Reports & Recommendations	Savings/ (Cost)	Gain/ (Loss)	Fund Type	Included in Introduced Bill	Action Required During Session
Improve Data Collection and Reform State Truancy Laws to Enhance the Quality of Truancy Interventions, p.1					
<i>This report includes seven recommendations that would have an estimated net cost of \$4.6 million in General Revenue Funds in the 2016-17 biennium. Other recommendations in this report would affect the budget's of the Texas Education Agency and the Office of Court Administration. The recommendations would improve the legislature's ability to compare the effectiveness of different programs and policies intended to reduce truancy across the state. Implementing reforms to certain court procedures would provide additional protections for children and families while maintaining the court's ability to enforce state truancy laws.</i>					
<p>1. Increase GR appropriations to Trusted Programs Within the Office of the Governor (Trusted Programs) by an estimated \$4.6 million and include a rider in the introduced 2016–17 General Appropriations Bill requiring Trusted Programs to distribute grants to local governmental entities for truancy prevention and intervention services. The Eighty-third Legislature established a court cost to fund grants for juvenile case manager services and prevention activities. Revenue would have been deposited to the new GR-D Truancy Prevention and Diversion Fund; however, this was not exempted from funds consolidation. Revenue is therefore deposited to GR and no funds were appropriated for these grants.</p>	(\$4,600,000)		GR	<p align="center">Appropriation Increase to Trusted Programs Strategy B.1.1, p.
