Section 3a

**Texas A&M Transportation Institute
Selected Fiscal and Policy Issues - House**

1. Recommendations decrease Fund 6 by \$17,035,875 and \$14,035,875 is replaced by General Revenue (\$3,000,000 in Fund 6 for legislative resource program is not replaced with General Revenue.) General Revenue is further decreased by \$1,500,000 associated with the Legislative Resource Program. Fund 6 is used in the current biennium for sponsored transportation research, research within the agency’s ten national centers focused on railways, transportation economics, public transit, safety, sustainable transportation, and computational mechanics. Fund 6 was also used in the current biennium for indirect administration and infrastructure support inside Brazos County.
2. Recommendations include revision of Rider 5, Legislative Resource, with a decrease in biennial General Revenue appropriations by \$1.5 million and elimination of Fund 6 appropriations by \$3 million related to the Legislative Resource Program.

Infrastructure Support

3. Section 50 of the Special Provisions Relating Only to State Agencies of Higher Education provides that funding at Texas A&M System agencies for infrastructure support inside Brazos County is calculated using the Texas A&M University General Revenue rate. Funding amounts are adjusted to align with the formula funding decisions for the General Academic Institutions. Currently, infrastructure support inside Brazos County for the Texas A&M System agencies is funded at the 2014-15 base levels.
4. Funding for infrastructure support outside Brazos County includes a new methodology based on actual square footage. General Revenue funding for infrastructure support outside Brazos County is equal to 2014-15 funding levels and is proportionally allocated to each agency by its respective percentage of total square footage. 2014-15 appropriated amounts in this table may differ from base amounts in Section 2 due to funding reallocations by the agencies.
