**Facilities Commission
Selected Fiscal and Policy Issues - House**

1. New Construction Projects.

Texas Facilities Commission (TFC) 2020-21 exceptional item requests include two new Phase Two buildings in the Capitol Complex with associated parking structures and capitol mall extension (\$313.9 million), two new Phase Two buildings and associated parking structure at the North Austin Complex (\$161.3 million), and a Flex Office Building to be constructed in the Austin area (\$25.0 million). The agency's requests for new construction funding totaling \$500.2 million in Revenue Bond Proceeds are not included in the recommendations.

In the 2016-17 biennium, TFC was appropriated \$767.7 million in Revenue Bond Proceeds for new construction projects. These projects included Phase One utility infrastructure in the Capitol Complex (\$71.3 million), two new Phase One office buildings in the Capitol Complex and associated sub-surface parking (\$509.9 million) to be completed in 2022, as well as Phase One of a new building and parking garage at the North Austin Complex (\$186.4 million) to be completed in 2020.

Source: Texas Facilities Commission and the Legislative Budget Board

The overall goal of TFC new construction projects is to reduce the state's reliance on leased office space. In fiscal year 2017, 90 percent of the state's 8.66 million square feet of leased office space was occupied by 10 agencies or departments at \$17.50 per square foot (\$151.6 million in total). In Travis County, the state was leasing 1.96 million square feet of office space at \$20.59 per square foot (\$40.3 million in total). 51 percent of the state's office space leases in Travis County are due to expire by the end of fiscal year 2022. By that time, the cost of leased office space is expected to climb 19 percent as demand outpaces supply in Texas' major cities.

In 2017, TFC managed 5.98 million square feet of state-owed office space at \$14.84 per square foot (\$80.7 million in total). The agency reports that the Capitol Complex Phase One and North Austin Complex Phase One facilities will operate between \$10.00 and \$10.80 per square foot after their 2059 break-even point.

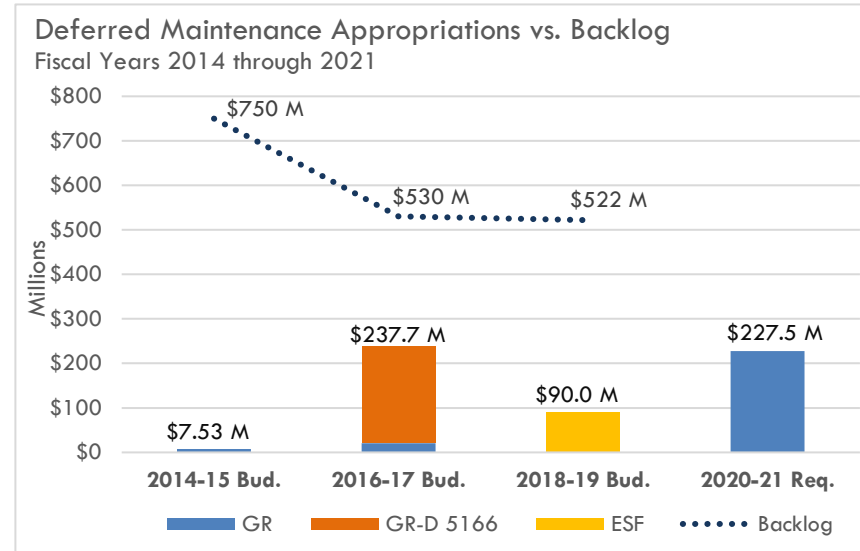

*Ownership costs include utilities, maintenance, janitorial, and bond debt payments.

2. **Deferred Maintenance Projects.**

2020-21 recommendations do not include new deferred maintenance funding, nor the agency request for \$227.4 million in General Revenue and one FTE to address a backlog of deferred maintenance projects at 61 TFC-administered state facilities (\$185.3 million), 32 Texas School for the Blind and Visually Impaired facilities (\$6.7 million), and 33 Texas School for the Deaf facilities (\$35.3 million). Requested projects would address critical health and safety repairs, and rectify mission-centric deficiencies by fiscal year 2024.

In the 2016-17 biennium, TFC was appropriated \$217.2 million in General Revenue – Dedicated Account No 5166 funds, as well as \$11.0 million in General Revenue for health and safety repairs at Texas School for the Deaf and \$9.5 million in General Revenue for other TFC deferred maintenance projects.

In the 2018-19 biennium, TFC was appropriated \$90 million in Economic Stabilization Funds, 13 percent of which was encumbered through the end of fiscal year 2018 to implement 10 major deferred maintenance projects across multiple buildings. The agency reports that the overall deferred maintenance backlog has decreased from \$750 million in fiscal year 2014 to \$522 million in fiscal year 2018.

3. **Reduction of One-Time funding items.**

Recommendations reflect a decrease of \$743.0 million in Revenue Bond Proceeds and \$125.0 million in Economic Stabilization Funds. This funding is a combination of unexpended balances from the 2016-17 biennium, as well as new appropriations made in the 2018-19 biennium for one-time capital projects. These capital projects involved funding for deferred maintenance projects, LBJ Building renovations, and planning activities. The total \$868.0 million in funding is related to following activities:

2016-17 Appropriations in Revenue Bond Proceeds:

- \$180.0 million for the North Austin Complex Phase I project
- \$53.0 million for the Capitol Complex Phase I project

2018-19 Appropriations in Economic Stabilization Funds:

- \$4.8 million for the G.J. Sutton Building Development project
- \$14.6 million for the Texas School for the Blind and Visually Impaired Toddler Learning Center and Central Services Building renovation projects
- \$2.0 million for the Texas School for the Blind and Visually Impaired Residential and Weekend Home renovation project
- \$90.0 million for 10 major deferred maintenance projects across multiple buildings
- \$13.6 million for the LBJ Building renovation project

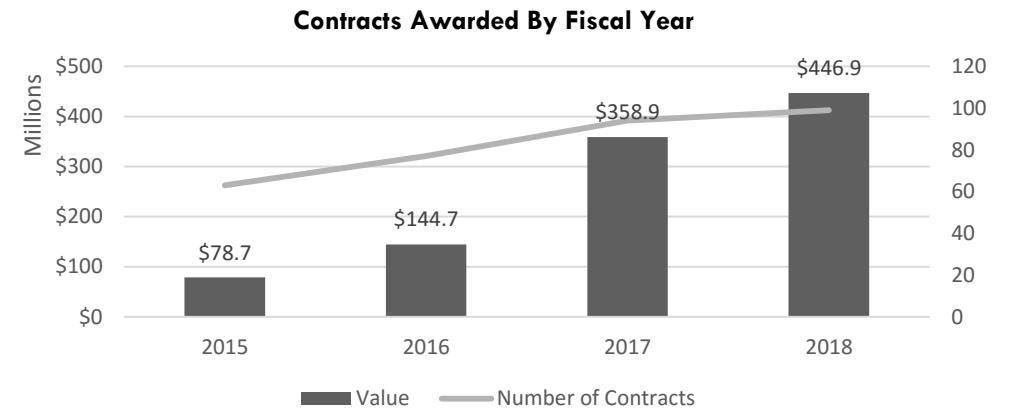

4. **Emergency Repairs funding.** Recommendations include \$9.5 million in General Revenue for the 2020-21 biennium to continue emergency repair funding at the same level appropriated in the 2018-19 biennium. Appropriations for the 2016-17 biennium included \$20.0 million in General Revenue for this purpose, \$6.8 million of which was utilized to fund emergency repairs in fiscal year 2017. In the 2018 fiscal year, no request to access this appropriation was made by TFC and no request has been submitted yet for fiscal year 2019. If unutilized, these funds will be lapsed at the end of fiscal year 2019.

Notes:

a) TFC exceptional item number 3 requests \$10.9 million and 44.0 FTE for the 2020-21 biennium to fill vacancies in Strategy B.2.1. Facilities Operation, and to adjust salaries across other agency functions. The agency reports difficulty in maintaining a skilled trade and technical workforce due to non-competitive wages and a strong demand in the private labor market for skilled building trades. This has increased TFC's reliance on more expensive contracted labor, which at times comprises a quarter of the agency's FTE cap, and constrains TFC's ability to develop in-house maintenance capabilities.

b) The State Auditor's Office Report, Executive Compensation at State Agencies (Report 18-705, August 2018), indicates a market average salary of \$200,261 for the Executive Director position at TFC. The report recommends changing the salary classification group of his position from 5 to 6. The agency is requesting to increase the salary cap and related funding for the Executive Director from \$177,982 to \$195,000 as a part of exceptional item number 3.
