**State Office of Administrative Hearings
Selected Fiscal and Policy Issues - House**

1. **Case Management System.** The State Office of Administrative Hearings (SOAH) was appropriated \$1.4 million in General Revenue (GR) and capital budget authority in the 2016-17 biennium for an integrated case management system. Implementation was delayed due to an assessment of the agency's IT infrastructure, systems, and processes, and a resulting modernization of certain software and hardware systems. Due to the delay, the agency received unexpended balance authority for the \$1.4 million in the 2018-19 biennium. SOAH anticipates procuring the case management system in fiscal year 2019.

Recommendations include the removal of the one-time funding of \$1.4 million in GR in the 2020-21 biennium for the case management system. Recommendations also include an increase of \$125,000 in GR to retain a full-time system database administrator and fund increased costs for the Data Center disaster recovery services and utilities in alignment with the Department of Information Resources estimates of ongoing costs.

2. **Interagency Contracts Decrease.** The agency anticipates a decrease in case hours from 2018-19 contracted levels for agencies funded through Interagency Contracts (IAC). As a result, recommendations include \$8.2 million in IACs in the 2020-21 biennium, a decrease of \$1.3 million from the 2018-19 base. The projected case hours for the 2020-21 biennium is 64,428, a decrease of 11,644 from the contracted case hours in the 2018-19 biennium. The decrease in case hours is primarily related to the Health and Human Services Commission, Department of Family and Protective Services, and Department of State Health Services as the agencies had difficulty estimating their case hours throughout consolidation. Recommendations are based on the IAC hourly billing rate of \$128 established in the agency's Rider 8, Billing Rate for Workload, in the 2018-19 General Appropriations Act.
3. **Request to Increase Hourly Billing Rate.** SOAH requests to increase the agency's hourly billing rate from \$128 to \$150 in Rider 7, Billing Rate for Workload, in the 2020-21 biennium for cases funded through IAC, in alignment with actual costs reported in the SOAH Hearings Activity Report required by Rider 5 in the agency's bill pattern. This request would result in an increase of \$1.4 million in IACs in the 2020-21 biennium. The agency states the increase is primarily related to a higher percentage of large and complex cases (see Section 5: Items Not Included in Recommendations #1; Appendix G: Interagency Contracts Overview). In the event that the hourly billing rate of \$150 and an associated increase in IAC funds is not adopted, the agency requests an exceptional item of \$1.4 million in GR to maintain the current level of funding for all agencies (see Section 5: Items Not Included in Recommendations #2).

Rider Highlights - House**

Modification of Existing Riders

2. **Capital Budget.** Recommendations include a decrease of capital budget authority totaling \$60,200 in GR for the removal of PC replacements from the agency's capital budget due to the project cost being under the \$100,000 threshold set in Article IX, Section 14.03. The agency will continue PC replacements within its daily operating budget. Modifications to the rider also include an increase of \$24,906 in GR for Data Center Services disaster recovery in alignment with the Department of Information Resources estimates of ongoing costs.
5. **Hearings Activity Report.** Recommendations include the removal of the requirement to track the number of transcripts requested by Administrative Law Judges as the Administrative Law Judges only request approximately 0-3 transcripts each year.
7. **Billing Rate for Workload.** Recommendations include the deletion of section (b) of Rider 7. Rider 7(b) states SOAH and the Comptroller of Public Accounts shall establish an Interagency Contract and the contract shall provide funding for hearings on tax issues conducted by Master Administrative Law Judge IIs in a team with expertise in state tax. The deleted section is currently established in statute and the deletion aligns with the Eighty-fourth Legislature Sunset recommendations.

Deleted Riders

3. **Renegotiation of Lump Sum Contract.** Recommendations include the deletion of this rider to align the contracts for the Texas Commission on Environmental Quality (TCEQ) and Public Utility Commission (PUC) to lump sum contracts similar to other Interagency Contract agencies, pursuant to Government Code, Sec. 2003.024, Interagency Contracts; Anticipated Hourly Usage and Cost Estimates. Historically, PUC has exceeded the contract amount and TCEQ actual costs have been below the contract amount. SOAH states the rider creates an unnecessary administrative burden for the agency. Contract renegotiation occurs late in the fiscal year, and thus the agency has difficulty expending the refunded amounts within the same fiscal year.
9. **Unexpended Balance and Capital Authority: Case Management System.** Recommendations include the deletion of this rider as the agency anticipates procuring and implementing the case management system in fiscal year 2019.

Notes: The 2020-21 Recommended column reflects an hourly billing rate of \$128 to align with the 2018-19 billing rate. The 2020-21 Including Exceptional Item column reflects an hourly billing rate of \$150, as requested by the agency in alignment with actual costs reported in the SOAH Hearings Activity Report. According to the agency, the projected increase in costs is primarily related to a higher percentage of large and complex cases.
