Agency Budget and Policy Issues and/or Highlights

Texas A&M Engineering Experiment Station (TEES) conducts research, provides continuing education, and develops technology to assist industry and the engineering workforce. TEES performs engineering and technology research on water, energy, manufacturing, and the environment across the state of Texas.

The bill pattern for this agency (2020-21 Recommended) represents an estimated 88.6% of the agency's estimated total available funds for the 2020-21 biennium.

Selected Fiscal and Policy Issues - House**

1. **Infrastructure Support.** Funding to Texas A&M System agencies for infrastructure support within Brazos County is calculated using the General Academic Institutions' infrastructure formula rate, but is adjusted for 2020-21 for each respective agency based on updated space data.

Selected Federal Fiscal and Policy Issues

Federal Funds estimates for Engineering Grants and Nuclear Energy Research, Development, and Demonstration Grants have increased in the 2020-21 biennium as a result of higher federal awards to the state.
