Agency Budget and Policy Issues and/or Highlights

- Recommendations include \$0.8 million in Economic Stabilization Funds for campus safety infrastructure improvements.
- General Revenue recommendations include the removal of \$0.3 million in FY 2019 CAPPS funding, partially offset by an increase of \$0.2 million to maintain parity with Austin ISD salaries.
- Recommendations include controls to mitigate the impact of fluctuating Appropriated Receipts, including maintaining General Revenue for classroom teacher salaries and quarterly reconciliation reporting from the agency.

The bill pattern for this agency (2020-21 Recommended) represents an estimated 96.5% of the agency's estimated total available funds for the 2020-21 biennium.

**School for the Blind and Visually Impaired
Selected Fiscal and Policy Issues - House**

1. **Campus Safety and Security Funding.** Recommendations include an increase of \$0.8 million in Economic Stabilization Funds for campus security infrastructure improvements and equipment, including security cameras, security utility vehicles, communications equipment, fencing and gate upgrades, rekeying of the campus, lighting upgrades, and cybersecurity hardware and software.
2. **TSBVI Budget Shortfall and Appropriated Receipts Tracking.** TSBVI receives payments from Independent School Districts (ISDs) whose students attend TSBVI during the regular school year. Recommendations for the 2020-21 biennium include \$3.2 million in Appropriated Receipts, \$2.4 million of which are ISD payments, representing 18.7 percent of funding for Strategy A.1.1, Classroom Instruction, in the 2020-21 biennium.

TSBVI is appropriated all current year ISD payments in excess of those listed in their bill pattern under Rider 5, Payments by School Districts, Special Provisions for TSBVI and TSD, and has unexpended balance (UB) authority within and between biennia under Rider 3, Appropriation of Funds, Special Provisions for TSBVI and TSD. In FY 2012 and FY 2013 the school received settle-up payments of \$0.6 million and \$0.2 million, respectively. These amounts were built into the school's budget to be spent over the subsequent years.

However, during this time the presence of these one-time ISD Fund payments combined with inadequate budgeting and forecasting procedures caused the school to over-project future ISD payments for the 2018-19 biennium. During the 85th Regular Legislative Session, TSBVI was projected to exhaust remaining ISD Fund balances in FY 2019 and received an additional \$0.6 million in GR to offset those decreases. However, the school did not recognize that it had overestimated its Appropriated Receipts until after fiscal year 2018 had begun.

2018-19 Budget Gap. In May 2018, TSBVI reported that it was facing a \$1.0 million budget shortfall due to these budgeting issues. To cover August 2018 teacher salaries and most other outstanding expenditures, TSBVI received a \$0.2 million Governor's Emergency and Deficiency Grant, expended approximately \$0.2 million from trust funds (outside the treasury and not subject to the legislative appropriations process), and transferred \$0.5 million in GR from fiscal year 2019 to fiscal year 2018 through TSBVI Rider 5, Cash Flow Contingency.

To address the ongoing budget gap in FY 2019, the agency revised its FY 2019 operating budget to implement \$0.7 million in budget reductions and draw down between \$0.1 million and \$0.3 million in additional trust funds to reduce GR-funded expenditures by between \$0.9 million and \$1.1 million. Reductions are implemented across all agency programs except classroom instruction. The operating budget maintains partial funding for FY 2019 summer programs, which are currently projected to serve approximately 200 non-TSBVI students for sessions ranging from one to four weeks. In FY 2017, prior to the cash shortage, summer programs served 345 students over five weeks. Additionally, TSBVI has requested a transfer of \$0.3 million in funding for summer programs from the Health and Human Services Commission. If funded, the request would increase FY 2019 attendance to 300 students.

2020-21 Recommendations. Recommendations for the 2020-21 biennium maintain 2018-19 base funding, including the additional \$0.6 million in GR appropriated to offset Appropriated Receipts decreases. Recommendations allocate GR to maintain historical funding levels for classroom instruction and short term programs, including summer programs, and assume the agency will need to draw additional trust funds and make additional budget reductions to residential programming, statewide outreach, and administration.

Recommendations also add a new rider requiring TSBVI to submit quarterly reports to LBB showing projected and actual ISD Funds received and expended for the fiscal year to date. (See Special Provisions for the School for the Blind and Visually Impaired and School for the Deaf.) This continues work LBB staff and the agency have done during FY 2018 to improve transparency and accuracy of Appropriated Receipts tracking.

3. **Educational Professional Salary Increases.** Recommendations include an increase of \$152,571 in GR over the 2018-19 base to maintain FY 2019 salary levels in the 2020-21 biennium, but do not make assumptions about additional AISD salary increases in the 2020-21 biennium.

Texas Education Code §30.024 and Rider 4 of the agency's bill pattern require TSBVI to pay professional educators salaries equivalent to professional salary rates at Austin ISD. TSBVI's Education Professional Salary Increase strategy is an estimated appropriation that provides additional GR to grant comparable salary increases to those adopted by AISD during the 2020-21 biennium.

In FY 2018, TSBVI implemented a 1.5 percent salary increase. In FY 2019, TSBVI will implement an additional 1.5 percent across the board increase and increases earned through the Professional Pathways for Teachers (PPfT) program, which was adopted by AISD.

4. **Superintendent Salary.** Recommendations maintain the superintendent's salary of \$142,159 and classification of Group 4 for the 2020-21 biennium.

TSBVI requests a reclassification of the superintendent position from Group 4 to Group 5 with no salary increase in the 2020-21 biennium. The State Auditor's Office Report, *Executive Compensation at State Agencies* (Report 18-705, August 2018), recommends reclassification of the superintendent position from Group 4 to Group 5. The report indicates a current market average salary of \$162,543 for this position.

TSBVI further requests that the superintendent's salary cap continue to be governed by the GAA, rather than Texas Education Code §30.023, which requires the TSBVI Board to set the superintendent's salary annually at a rate not to exceed 120 percent of the annual salary of the highest paid instructional administrator at the school. Currently, the maximum superintendent salary under this provision is \$148,279. The superintendent's current salary authority of \$142,159 in the 2018-19 GAA is within this limit.

Rider Highlights - House**

Modification of Existing Riders

4. **Educational Professional Salary Increases.** No substantive changes. Recommendations clarify legislative intent regarding salary increases by replacing references to previous and subsequent biennia with references to specific fiscal years.

New Riders

7. **Campus Safety and Security Funding.** Recommendations add rider directing the expenditure of \$753,500 in Economic Stabilization Funds for campus security infrastructure improvements and equipment.

Deleted Riders

7. **Uses of Additional Funding.** To reflect actual agency operations, recommendations delete this rider directing use of additional GR for four FTEs and operating expenses. Agency received LBB approval to reallocate the funding for other staff in the 2018-19 biennium, as provided by the rider.
8. **Transfer of Funds to the Texas Facilities Commission.** Recommendations delete rider directing the transfer of one-time funding for the Residential Administration and Weekends Home Transportation facility to the Texas Facilities Commission. Recommendations do not include additional funding for these projects in the 2020-21 biennium.

a) Estimated FY 2018 FTEs are 7.0 below the cap due primarily to vacancies in Strategy A.1.2, Residential Program. FY 2019 projected increase of 5.0 FTEs related to CAPPS conversion.

b) The State Auditor's Office Report, Executive Compensation at State Agencies (Report 18-705, August 2018), indicates a market average salary of \$162,543 for the superintendent position at TSBVI. The report recommends changing the salary classification group from Group 4 to Group 5.

In the 2020-21 biennium, TSBVI requests to reclassify the Superintendent position from Group 4 to Group 5 with no salary increase.
