Selected Fiscal and Policy Issues - House**

1. **Assessment of Retirement Systems' Investment Practices and Performance.** The enactment of Senate Bill 322, Eighty-sixth Legislature, requires the Pension Review Board (PRB) to implement on-going assessments of retirement systems' investment practices and performance. Senate Bill 322 requires the majority of Texas' public retirement systems to report enhanced investment expense information to the PRB. To assist retirement systems to comply with this requirement, the PRB has engaged with systems and addressed concerns regarding the format and timing of the first investment expense disclosures; published rules to assist with reporting investment expenses; and created a template and a guide as requested by systems for further assistance. Senate Bill 322 also added Section 802.109 to the Texas Government Code to require systems with at least \$30 million in assets to select an independent firm to evaluate the appropriateness, adequacy, and effectiveness of the system's investment practices and performance and to provide recommendations for improvement. The PRB also created an Investment Committee to submit an investment performance report to the Governor and Legislature which will summarize and compile the evaluations and provide potential legislative recommendations to improve the law.
2. **Five percent reduction affect on FTEs.** The PRB is authorized for 13 FTEs and currently has 12 FTEs. To comply with the 5 percent reduction of the agency's budget for the current biennium, the PRB will leave 1.0 FTE position for a financial analyst vacant. The agency is requesting \$112,875 in General Revenue to fill this position, which is not included in the recommendations.
