1. Overview of Lease Payment Appropriations

Recommendations for 2024-25 Lease Payments include an increase of \$9.7 million in General Revenue (GR). This reflects an increase in debt service requirements for issued Revenue Bonds related to the Capitol Complex and North Austin Complex projects. The Texas Facilities Commission (TFC) is appropriated GR at the end of each Article for Lease Payments that are to be transferred to the Texas Public Finance Authority (TPFA) for debt service on lease Revenue Bonds that were issued in prior biennia for acquisition, construction, repair, or renovation of a facility. TPFA holds the title to the affected facilities but then leases the facility back to TFC.

TFC Lease Payments agency allocations are based on the square footage occupied by an agency plus the agency’s portion of common space in the building. This allocation applies only to agencies occupying space in state-owned buildings that were purchased, constructed, repaired, or renovated with Revenue Bonds. Agency allocations are listed as an informational item within the “Estimated Allocations for Employee Benefits and Debt Service Appropriations Made Elsewhere in this Act” in each affected agency’s bill pattern after the Object-of-Expense Information Listing.

Beginning with the 2018-19 biennium, appropriations for Lease Payments have grown rapidly as payments for Revenue Bonds issued to finance the Capitol Complex and North Austin Complex construction projects have become due. This growth has been offset to a degree by the payoff of Revenue Bond payments for older facilities such as the R.E.J. Building in the 2024-25 biennium. Currently, appropriations for the new Lease Payments largely flow through TFC and Article I, as the chart above shows, to fund payments to bondholders as these buildings are constructed. Once tenant agencies begin to use these spaces appropriations will again be reallocated across Articles using this End of Article procedure through their respective bill patterns.

These recommendations fund Lease Payments at the levels calculated by TPFA.
