Selected Fiscal and Policy Issues - House**

1. **Update on the Hazlewood Database Improvements.** In the 2024-25 biennium, the Texas Veterans Commission (TVC) was appropriated \$1,088,458 in General Revenue to replace or refurbish the existing Hazlewood Act Database. The database houses individual records of the Hazlewood Act tuition exemption benefits for veterans, their dependents, and spouses. The database is accessed by students and institutions of higher education. Several higher education system offices have expressed concerns regarding data consistency and transparency. Several general academic institutions have requested to add a new rider to the Permanent Fund Supporting Military and Veterans Exemptions bill pattern requiring TVC to report Hazlewood exemption program data to the institutions. **This rider is included in recommendations.**

As of January 13, 2025, the agency has selected a contractor and has begun working with them to assess project needs and develop an implementation plan. The agency anticipates completion of the database project by October 2025. The agency did not request authority to carry forward unexpended balances to the 2026-27 biennium. However, recommendations add a rider providing this authority.

Funding for ongoing support of the new database is included at \$237,503 from General Revenue in each fiscal year.
