**Agency Budget and Policy Issues and/or Highlights**

Texas A&M AgriLife Research conducts research in agricultural, environmental, and life sciences. The agency's research is on human nutrition, livestock, plants, crops, and processing techniques to ensure Texas' agriculture system is competitive. AgriLife Research focuses on conserving natural resources and research that addresses air, soil, and water quality. The agency also administers the honey bee regulation program and feed and fertilizer control service program. In the Eighty-seventh Legislature, 2021, the agency was also charged with conducting research advancing the scientific evidence-base connecting food and nutrition for health promotion and chronic disease prevention through the Advancing Health Through Agriculture program.

The bill pattern for this agency (2026-27 Recommended) represents an estimated 33.2% of the agency's estimated total available funds for the 2026-27 biennium.

Selected Fiscal and Policy Issues - House**

1. **Infrastructure Support.** Funding to Texas A&M System agencies for Infrastructure Support Inside Brazos County is calculated using the General Academic Institutions' Infrastructure Support formula rate. Texas A&M System agricultural agencies (including Texas A&M AgriLife Research) also receive funding for Infrastructure Support Outside Brazos County through a sum-certain appropriation. Currently, the infrastructure support funds included in the recommendations for inside Brazos County are calculated using the 2026-27 Texas A&M University formula rate, multiplied by the agencies' fiscal 2023 predicted square footage.
