Agency Budget and Policy Issues and/or Highlights

The Available University Fund (AUF) is authorized in the Texas Constitution, Article VII, Section 18. The AUF provides funding for institutions in the University of Texas (UT) System and most agencies and institutions in the Texas A&M University (TAMU) System. AUF appropriations are first used to pay the debt service on bonds backed by the Permanent University Fund (PUF), which may be issued for acquiring land, constructing and equipping buildings, major repair of buildings, acquisition of capital equipment, refunding bonds or notes, and other permanent improvements for eligible institutions. The Texas Constitution allows the UT System and TAMU System to use any remaining funds in the AUF distributions, after paying debt service, for support and maintenance at certain institutions and for system operations.

The bill pattern for this agency (2026-27 Recommended) represents an estimated 100.0% of the agency's estimated total available funds for the 2026-27 biennium.

Selected Fiscal and Policy Issues - House**

1. **Estimated Appropriations for the Available University Fund for the 2026-27 biennium.** Recommendations include a \$119.2 million decrease in estimated appropriations from the Available University Fund (AUF) for the 2026-27 biennium, for a total of \$3.6 billion. The funds would be allocated, pursuant to the Texas Constitution, Article VII, Section 11 requirements, as follows:
 - \$2.4 billion to the University of Texas (UT) System, and
 - \$1.2 billion to the Texas A&M University (TAMU) System.

2. **Basis for the Estimated AUF Appropriations.** The Permanent University Fund (PUF) is a state endowment fund that contributes to the support of 20 institutions and 6 agencies of the UT and TAMU systems. The PUF includes 2.1 million acres of land grants. Annual distributions are made from the PUF to the AUF as approved by the UT System’s Board of Regents in accordance with the Texas Constitution requirements and Board of Regents’ policy. The AUF also consists of surface income from PUF lands and interest income on AUF balances held in the state treasury.

When compared to the actual amounts for the 2024-25 biennium, the AUF appropriation for the 2026-27 biennium provides a decrease in funding by \$119.2 million. This difference is due to anticipated growth in the value of the PUF (the trailing 12-quarter average of net assets) against which the Board of Regents’ approved annual distribution percentage is applied, offset by a \$462.7 million non-recurring special distribution from the PUF to the AUF authorized by the Board of Regents in fiscal year 2024. For fiscal years 2026 and 2027, the annual PUF distribution amounts are projected to increase from the fiscal year 2025 amount by a rate equal to the Consumer Price Index (CPI) plus 2.65 percent. The 2026-27 PUF distributions will not exceed the maximum 7 percent of the average fair market value of the PUF in any fiscal year, as mandated by the Texas Constitution. The corpus value of the PUF on August 31, 2024, was \$36.5 billion (see page 4 for historical values).

3. **Bonds Backed by the PUF.** The Texas Constitution authorizes the governing boards of the UT and TAMU systems to issue PUF-backed bonds and notes (PUF bonds) to finance capital expenditures. Debt service payments on PUF bonds are paid from each respective system’s AUF appropriations. On August 31, 2024, the UT System had outstanding PUF bonds of \$3.8 billion and the TAMU System’s outstanding PUF bonds totaled \$1.5 billion. This outstanding debt is approximately 16.9 percent of the PUF’s book value, which is below the combined constitutional limit of 30 percent (20 percent for UT System and 10 percent for TAMU System).
