Selected Fiscal and Policy Issues - House**

1. **Funding Overview.** Recommendations include \$3,588.3 million in General Revenue (GR) and GR-Dedicated (GR-D) funds. The agency has requested \$919.8 million in General Revenue for six exceptional items which are not included in these recommendations.

Recommendations for the 2026-27 biennium are a reduction from the 2024-25 base amount by \$1,836.0 million in General Revenue Related funds, as noted in Section 2, primarily related to the removal of one-time funding items and reduced funding in the agency’s base request. Recommendations align with the agency request and reflect the following approaches:

- Removal of unexpended balances from 2022-23 biennium and additional revenues included in the agency’s 2024-25 budget.
- Reductions of depleted Governor’s University Research and Texas Enterprise Funds.
- Removal of border security appropriations provided in Strategy A.1.1, Disaster Funds, through Senate Bill 3, Eighty-eighth Legislature, Fourth Called Session, related to a one-time transfer to the Department of Public Safety. **The remainder of border security funding remains level with 2024-25 appropriations.**
- Addition of General Revenue funding to offset reduced federal Crime Victims Assistance grants.

2. **Disaster Funding.** In the 2024-25 biennium, the agency was appropriated \$111.6 million in General Revenue and \$38.4 million in estimated unexpended balances of General Revenue carried forward from fiscal year 2023 into fiscal year 2024.

The agency awarded \$88.7 million in fiscal year 2024 in disaster awards. Approximately \$88.0 million in awards were made to the Texas Department of Emergency Management (TDEM) and the remaining \$0.7 million to the Texas Military Department (TMD). The agency has awarded \$86.4 million in disaster grants to TDEM in fiscal year 2025, as of December 30, 2024. Recommendations for the 2026-27 biennium include \$149.7 million in General Revenue to provide grants for disaster response and recovery.

Source: Office of the Governor (as of 12/30/2024)

3. **Border Security Funding.** The Eighty-eighth Legislature appropriated a total of \$3,228.7 million in All Funds to the Trusteed Programs for programs related to border security. This amount includes \$1,388.7 million in the 2024-25 General Appropriations Act, plus an additional \$1,540.0 million appropriated in Senate Bill 3, Eighty-eighth Legislature, Fourth Called Session, for the 2024-25 biennium. Additionally, \$300.0 million in General Revenue Funds for border operations were appropriated in fiscal year 2023 through Senate Bill 30, Eighty-eighth Legislature, Regular Session and carried forward into the 2024-25 biennium. Of the amounts appropriated, \$57.0 million is identified by riders in the agency’s 2024-25 bill pattern.

Excluding the \$40.0 million appropriation in SB 3, Eighty-eighth Legislature, Fourth Called Session, the agency was appropriated \$2,888.7 million for the 2024-25 biennium. Recommendations for the 2026-27 biennium maintain funding at \$2,888.7 million in General Revenue for Border Security for border security activities.

General Revenue for Border Security Appropriations	Appropriated 2024-25	Recommended 2026-27
Rider 18. Prosecution Grants (formerly titled Border Security Operations). Grants for border prosecutions.	\$28,000,000	\$46,263,938
Rider 20. Grants for Local Border Security. Grants to local law enforcement agencies to support Operation Lonestar. This funding may also be used to assist with the humane processing of remains.	\$10,200,000	\$110,200,000
Rider 22. Anti-Gang Programs. Grants for anti-gang programs.	\$15,800,000	\$69,000,000
Rider 28. Grants to Border Zone Fire Departments. Grants to fire to support emergency services associated with border security activities.	\$3,000,000	\$3,000,000
General Appropriations Act. Funding included within the agency’s bill pattern. Excludes funding identified in riders or supplemental funding. Primarily related to construct a solid structure along the Texas border with Mexico.	\$1,331,671,273	\$2,660,207,335
SB 3, Sec. 1(a), 88(4). Border Security. Border security operations, including grants to local governments and local law enforcement agencies, and the construction, operation, and maintenance of border barrier infrastructure.	\$1,540,000,000	\$0
Section 1(b). Of the amount, \$40,000,000 transferred to the Department of Public Safety for border security operations, including additional overtime expenses.	(\$40,000,000)	\$0

Total	\$3,188,671,273	\$2,888,671,273

4. **Economic Development and Tourism Goal.** In the 2018-19 biennium, Goal C, Economic Development and Tourism, combined what had previously been distinct strategies into one, Strategy C.1.1, Create Jobs and Promote Texas, to allow the agency flexibility in utilization of discretionary funds among the Economic Development and Tourism programs. In alignment with the agency request, the approved budget structure changes for the 2026-27 biennium have separated Goal C back into independent strategies for Tourism, Music Film Television Multimedia, the Texas Enterprise Fund, Military Preparedness, University Research Initiative, and added a new strategy for the Texas Semiconductor Innovation Consortium.

Recommendations include \$404.1 million in All Funds in the 2026-27 biennium for all strategies within Goal C, Economic Development and Tourism. This amount does not include the agency’s exceptional item requests for the Texas Semiconductor Innovation Consortium grants, Defense Economic Adjustment Assistance grants, Governor’s University Research Initiative grants, or Texas Moving Image Industry Incentive Program grants.

Promote Texas. The Strategy C.1.1, Promote Texas, is now comprised of the Texas Tourism, Texas Business Development, and Border Economic Development programs. These programs market Texas as a travel and tourist destination in domestic and international markets and promote business recruitment and corporate expansion in the state.

Funding for the Texas Tourism program is funded by a dedicated portion of Hotel Occupancy Tax revenue equal to one-half of 1.0 percent of tax collections to be used for advertising and other marketing activities of the Economic Development and Tourism Office. Recommendations include a total of \$302.8 million in All Funds within Strategy C.1.1, Promote Texas, for the 2026–27 biennium. This amount includes an estimated \$127.5 million in General Revenue Hotel Occupancy Tax 5003.

Texas Moving Image Industry Incentive Program. The Eighty-eighth Legislature appropriated \$45.0 million in General Revenue in the 2024-25 biennium in Strategy C.1.1, Create Jobs and Promote Texas, for the Film Commission, Music Office, and the Texas Moving Image Industry Incentive Program (TMIIIP). Additionally, \$155.0 million in General Revenue Funds for the program were appropriated through Senate Bill 30, Eighty-eighth Legislature, Regular Session, for the 2022-23 biennium, which was carried forward to the 2024-25 biennium. Recommendations include a total of \$67.8 million in All Funds within Strategy C.2.1, Music Film Television Multimedia, for the 2026-27 biennium.

Texas Enterprise Fund (TEF). The Eighty-eighth Legislature appropriated \$150.0 million for new TEF grants through SB 30 for the 2022-23 biennium, which was carried forward to the 2024-25 biennium. According to the agency, as of August 31, 2024, the Texas Enterprise Fund has announced 2 awards totaling \$9.5 million which are projected to create an estimated 968 jobs in 2024-25 biennium. For the 2026-27 biennium, funding for TEF is identified within Strategy C.2.2, Texas Enterprise Fund. No additional funding is included in recommendations and the agency did not request any funding in this strategy. Recommendations continue unexpended balance authority.

The Trusteed Programs reports one key performance measure related to TEF, which tracks the number of new jobs announced by grantees for funded projects. Pursuant to Government Code, Section 481.079, the agency is also required to submit a report to the legislature before each legislative session that contains several different performance metrics related to the program.

Texas Military Preparedness Commission. The Texas Military Preparedness Commission (TMPC) was established by the Seventy-eighth Legislature to preserve, protect, expand, and attract new military installations to Texas. Article III, Section 49(n) of the Texas Constitution authorizes the issue of general obligation bonds for the Texas Military Revolving Loan Program for loans to defense communities for economic development projects of the Texas Military Preparedness Commission. Defense communities may include a political subdivision including a municipality, county, or special district as defined in Local Government Code Section 391.001. No new loans were issued out of the program in the 2024-25 biennium. As of October 2024, the general obligation bond authority for the Military Revolving Loan Program to provide infrastructure improvements loans to military communities anticipated to be affected by a Base Realignment and Closure (BRAC) is estimated at about \$202.3 million.

In the 2024-25 biennium, the agency was appropriated \$30.0 million in General Revenue within Strategy C.1.1, Create Jobs and Promote Texas, for Defense Economic Adjustment Assistance Grants (DEAAG) to fund infrastructure improvements and potentially prevent Texas from being negatively impacted in the event of a BRAC by the Department of Defense. In fiscal year 2024, \$15.4 million in grants was awarded to defense communities. For the 2026-27 biennium, funding for the Texas Military Preparedness Commission is identified within Strategy C.2.3, Texas Military Preparedness Commission. Recommendations continue General Revenue funding for DEAAG grants at \$30.0 million. Recommendations do not include the agency's exceptional item request for an additional \$20.0 million in General Revenue for the 2026-27 biennium.

Texas Semiconductor Innovation Consortium. The Texas Semiconductor Innovation Consortium (TSIC) and the General Revenue-Dedicated Texas Semiconductor Innovation Fund Account 5197 were created by House Bill 5174, Eight-eighth Legislature, Regular Session. The Consortium serves as an advisory panel to the Governor and the Legislature and is administratively attached to the Trusteed Programs Within the Office of the Governor, Economic Development and Tourism Office. The GR-D account is available to provide matching funding to state entities and institutions of higher education for semiconductor manufacturing design projects or to award grants to business entities with an established presence in the state to encourage economic development.

Senate Bill 30, Eighty-eighth Legislature, Regular Session, appropriated \$698.3 million to GR-D 5197 with a provision the appropriation could only be spent with approval of the Legislative Budget Board. In fiscal year 2024, TSIC made 4 awards to businesses totaling \$54.9 million. In fiscal year 2025, as of December 22, 2024, TSIC has made 5 awards to companies and 3 awards to institutions of higher education, totaling \$70.6 million. There is a balance of \$572.8 million remaining of the original Senate Bill 30 appropriation. Recommendations do not include the agency's exceptional item request for \$698.5 million in General Revenue and 1.0 FTE for the 2026-27 biennium. Recommendations include a total of \$2.0 million in General Revenue to administer the program, and a rider has been added to grant the agency unexpended balance authority of balances withing Fund 5197.

Governor's University Research Initiative. According to the agency, in fiscal year 2024, the Governor's University Research Initiative (GURI) made 3 awards to institutions of higher education: University of Texas – Austin; University of Texas – Southwestern Medical Center; and Texas A&M – College Station, totaling \$10.3 million. Recommendations do not include any GR-Dedicated Governor's University Research Initiative No. 5161 in the 2026-27 biennium to align with the agency base request. For the 2026-27 biennium, funding for GURI is identified within Strategy C.3.2, Governor's University Research Initiative. Recommendations do not include the agency's exceptional item request for \$40.1 million in General Revenue and 0.5 Full-Time Equivalents (FTEs) for the 2026-27 biennium.

5. **Texas Space Commission.** The Texas Space Commission and the Texas Aerospace Research and Space Economy Consortium (TARSEC), both administratively attached to the Trusteed Programs Within the Office of the Governor, were created by House Bill 3447, Eight-eighth Legislature, Regular Session. The Space Commission was established to promote innovation in the fields of space exploration and commercial aerospace opportunities in the state. TARSEC was established to make recommendations to the Space Commission regarding grant awards.

The Space Exploration and Aeronautics Research Fund (SEARF), also created by House Bill 3447, is a fund outside the treasury consisting of gifts, grants, donations, and legislative appropriations. The Fund is available for the Space Commission to make grants to eligible entities for the development of emerging technologies, research, workforce training, and aerospace industry promotion. In the 2024-25 General Appropriations Act, Article IX, Section 18.28, \$150.0 million was appropriated to the Comptroller of Public Accounts for transfer to the Space Exploration and Aeronautics Research Trust Fund Account 1203 outside the treasury.

The Texas Space Commission Board of Directors has approved one grant of \$705,000 from the SEARF in order for TARSEC to hold workshops across the state to discuss the topics outlined in Government Code, Section 482.302. The grant funding for TARSEC is supplied through an agreement between the Space Commission and Texas A&M, who is directed in statute to provide staff support services for TARSEC through an approved task order.

Public applications for grant funding through the SEARF closed January 21, 2025. The Space Commission received 284 grant requests totaling \$3.46 billion in requested funding. Received applications are reviewed by staff for compliance before they are put to the board for consideration. On January 24, 2025, the Board of Directors announced approval of four awards, totaling \$21.6 million. The Space Commission plans to meet again in February to consider more applications.

The agency has authority to transfer SEARF to the Trusteed Programs to fund related administration, but the agency has not done so in 2024-25 and did not assume any transfers within their request.

6. **Rider Appropriation Changes.** In addition to the recommended increased amounts above related to Border Security programs funded with General Revenue for Border Security, the agency requested several significant changes to General Revenue funding amounts allocated in riders which have been included in recommendations.

Summary of Federal Funds (2026-27) - House

Total \$787.4M

Selected Federal Fiscal and Policy Issues

Federal funds estimates decreased by \$3,432.3 million from 24-25 to 26-27. This is primarily attributable to a \$3,465.0 million reduction in COVID19 State Fiscal Recovery funds, and a \$51.6 million reduction in Crime Victims Assistance.

COVID19 State Fiscal Recovery Funds decline by \$3,465.0 million due to the expiration of the program. Crime Victims Assistance grants decrease by \$51.6 million due to a decline in federal allocations to the program.
