Caution: This symbol warns you of the possible loss of data.

Important: This symbol indicates information you need to know.

Tip: This symbol indicates information that may be useful.

SUPPLEMENTAL SCHEDULES FOR THE LEGISLATIVE APPROPRIATIONS REQUEST

Institutions and agencies of higher education are required to enter supplemental schedules into the Legislative Budget Board's (LBB) Automated Budget and Evaluation System of Texas (ABEST) in addition to the schedules required in the LBB's *2026–27 Legislative Appropriations Request Detailed Instructions* (hereafter called the *Detailed Instructions*). Refer to the *Detailed Instructions* for information on legislative appropriations request (LAR) requirements and other LAR schedules that apply to institutions/agencies of higher education (hereafter referred to as institution). Also, this ABEST data entry manual is a supplement to the LBB's *ABEST Instructions for Legislative Appropriations Request 2026–27 Biennium* (hereafter called *ABEST Instructions*).

To access the LBB's online versions of all *Detailed Instructions* and *ABEST Instructions* manuals for the LAR, from the LBB website (www.lbb.texas.gov), click **AGENCIES PORTAL**, and under **AGENCY INSTRUCTIONS AND APPLICATIONS** select **INSTRUCTIONS: BUDGET SUBMISSIONS & OTHER REPORTING**, and under **Budget Submission** click **Legislative Appropriations Request (LAR) Instructions**.

If you have a problem with the ABEST LAR application that you cannot resolve using these data entry instructions, send an email to **WebAppSupport@lbb.texas.gov** or call the LBB Help Desk at 512-463-3167. For detailed information on how to access ABEST business applications, see the main *ABEST Instructions*.

PROFILE SELECTION AND CONFIRMATION

Upon successfully logging into the ABEST, two rows of information with drop-down menu boxes will appear near the top of the screen. The first row is the "user profile confirmation bar" and the second row is the "user profile selection bar." Options selected on the "user profile selection bar" determine the menu layout for a particular business process in ABEST (e.g., Operating Budget, Base Reconciliation, Strategic Plan/Measure Definitions, etc.). The user needs to set their profile by selecting the correct session, business process, stage and agency using the drop-down menu boxes and by saving these selections. The saved selections will appear in the "user profile confirmation bar."

To set your user profile for the business process addressed in these ABEST instructions, complete the following steps. From the available drop-down menu boxes, select **89TH LEGISLATIVE REGULAR SESSION**, **Legislative Appropriation Request**, **S01 – AGENCY SUBMISSION**, and your institution. Click **Save Selections** to update your profile, as shown below.

The options you selected on your "user profile selection bar" will display on the "user profile confirmation bar", as shown in the following graphic. The agency **Status** associated with these settings is also included on the "user profile confirmation bar". The agency **Status** is explained in the *ABEST Instructions* in more detail, and the following example indicates an agency **Status** of **INCOMPLETE** because it is recommended your institution complete, as much as possible, the main LAR data entry work explained in the *ABEST Instructions* before working the supplemental schedules discussed in these instructions.

ABEST DATA ENTRY FOR INSTITUTIONS OF HIGHER EDUCATION SUPPLEMENTAL SCHEDULES

Before you enter data on the **Higher Education** menu, enter all required data on the **Strategy** menu (refer to the *Detailed Instructions* and *ABEST Instructions* for guidance as needed).

The **Higher Education** menu's first submenu (labeled **Other E, G & P Income**) is where you will enter data for your institution's Other Educational, General, and Patient Income. You will enter data similar to this data on additional **Higher Education** submenus later, but to avoid repetition in these data entry instructions, hyperlink references (denoted in blue, underlined text) will refer you to the initial procedures under the *OTHER EDUCATIONAL, GENERAL, AND PATIENT INCOME* section of these instructions. You must use the relevant submenu depending on where you are in the data entry process, but the basic steps are similar.

CAUTION
⚠ You will lose data if ABEST is inactive for 30 minutes or more. Always click "**Save**" if you leave your computer for more than a few minutes. If ABEST becomes inactive, you must close and reopen your internet browser and log back in. Any unsaved data must be re-entered.

CAUTION
⚠ Some of the ABEST screens on the **Higher Education** menu have multiple grids for data entry and the screen only has one "**Save**" button for that screen. ABEST allows you to click "**Save**" one time on that screen with multiple grids. You can click "**Save**" after entering data for each grid on the screen or you can enter data for all the grids and click "**Save**" one time. Use the method that works best for you to ensure that your data is saved before moving on to another menu or screen.

OTHER EDUCATIONAL, GENERAL, AND PATIENT INCOME

All general academic and health-related institutions, Lamar State Colleges, and Texas State Technical Colleges should enter data on the **Higher Education** menu and **HE - Other E, G & P Income** submenu. Enter data on actual and estimated Other Educational and General Income (Other E&G Income) for fiscal years 2023 through 2027. The information entered here calculates the estimated appropriations for Other E&G Income and creates the ABEST Schedule 1A report. Institutions will provide updated information for 2022 after the end of the fiscal year.

Click the **Higher Education** menu and **HE - Other E, G & P Income** submenu, as shown in the following graphic.

Adding Amounts – Enter the dollar amounts (positive numbers only) for each item and fiscal year listed and click **Save**.

IMPORTANT
DO NOT enter negative numbers on the grid. ABEST will automatically calculate the totals based on the "**Plus**" or "**Less**" label displayed for a given row of data.

To delete a row of data on the **Higher Education > HE - Other E, G & P Income > Itemize** screen, save any unsaved data first and then click the red '**x**' in the leftmost column, as shown in the below example. Click **OK** in the confirmation window.

HEALTH-RELATED INSTITUTION PATIENT INCOME

Health-related institutions (HRIs) that either generate patient income from hospital operations and receive General Revenue Funds for hospital operations, or receive patient income from dental clinic operations, should enter data on the **Higher Education** menu and **HE - Health-related Institution Patient Income** submenu. The entered data provides detail on patient income collected at institutions that operate a hospital or dental clinic. The information is used to calculate the estimated appropriations for patient income. The data collected here creates the ABEST Schedule 1B report. HRIs must provide updated information for 2022 after the end of the fiscal year.

Click the Higher Education menu and the HE - Health-related Institution Patient Income submenu, as shown below. (Note: only HRIs will have a HE - Health-related Institution Patient Income submenu.)

Add the amounts (positive numbers only) for each item and fiscal year on the **Higher Education > HE - Health-related Institution Patient Income** screen (as shown in the following example), just as you did earlier under the Other E, G & P Income section of these instructions.

SELECTED EDUCATIONAL, GENERAL AND OTHER FUNDS

All general academic and health-related institutions, Lamar State Colleges, and Texas State Technical Colleges should enter data on the **Higher Education** menu and **HE - Selected Educational, General and Other Funds** submenu. The information collected here summarizes Educational, General, and Other Funds, and includes funding sources not reflected in ABEST Schedule 1A or 1B or the Summary of Request. The data entered here creates the ABEST Schedule 2 report.

COMPUTATION OF OASI

All general academic and health-related institutions, Lamar State Colleges, Texas State Technical Colleges, and Texas A&M System agencies should enter data on the **Higher Education** menu and **HE - Computation of OASI** submenu. The entered data provides detail for actual and estimated (OASI) for fiscal years 2023–27. This information is used to calculate the amount to be deducted from the Other Educational and General Income Estimates. This data creates the ABEST Schedule 4 report.

Click the **Higher Education** menu and the **HE - Computation of OASI** submenu, as shown below.

CALCULATION OF RETIREMENT PROPORTIONALITY AND ORP DIFFERENTIAL

All general academic and health-related institutions, Lamar State Colleges, Texas State Technical Colleges, and Texas A&M System agencies should enter data on the **Higher Education** menu and **HE - Calculation of Retirement Proportionality and ORP Differential** submenu. The information collected here provides detail for actual and estimated proportionality and Optional

Retirement Program (ORP) differential for fiscal years 2023 through 2027. The data collected here creates the ABEST Schedule 5 report.

Click the Higher Education menu and the HE - Calculation of Retirement Proportionality and ORP Differential submenu, as shown below.

CAPITAL CONSTRUCTION ASSISTANCE PROJECTS REVENUE BOND - PROJECTS

Each institution (excluding Junior Colleges) seeking Capital Construction Assistance Projects revenue bond authority shall provide information on each proposed project for which Capital Construction Assistance Projects revenue bond funding is being requested. The data collected on the **Higher Education** menu and the **HE - Capital Construction Assistance Projects Revenue Bond - Projects** submenu provides information to evaluate proposed Capital Construction Assistance Projects revenue bond funded projects. The information entered here creates the ABEST Schedule 8A report.

Click the Higher Education menu and the HE - Capital Construction Assistance Projects Revenue Bond - Projects submenu, as shown below.
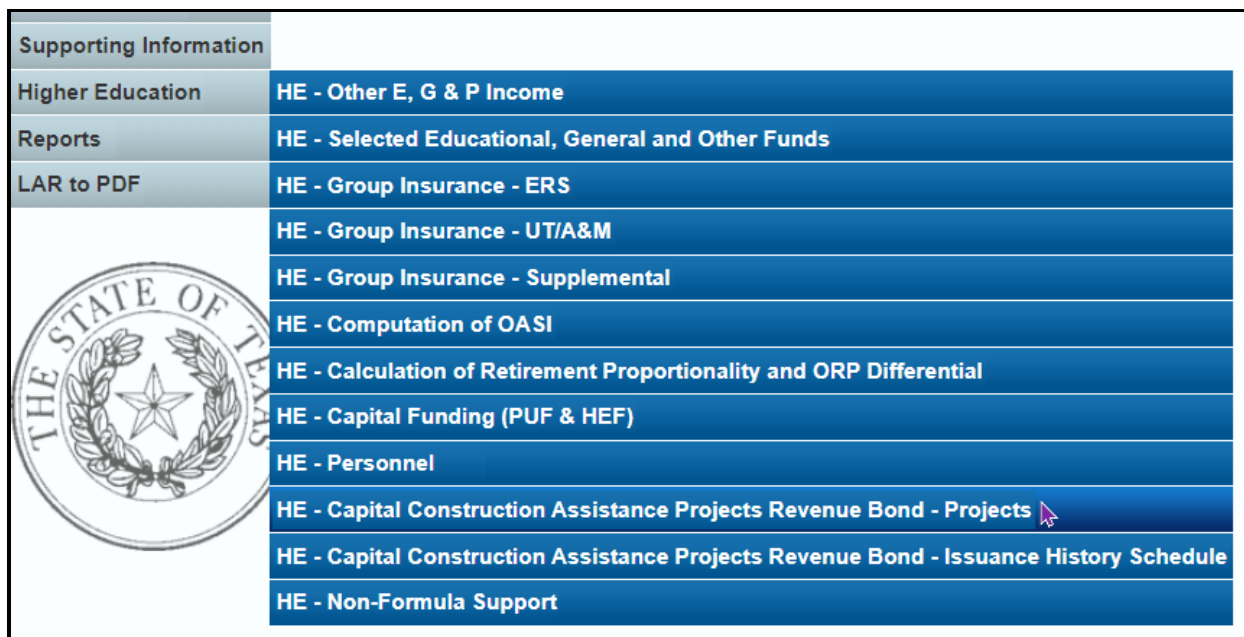

Adding A Project – On the **Higher Education > HE - Capital Construction Assistance Projects Revenue Bond - Projects** screen (shown in the following example), use the gray section to add the Name, Project Type, Location, Facility Type, Bond Request, Project Cost, Cost Per Sq. Ft., Gross Sq. Ft., Assignable Sq. Ft., Start Date, Comp. Date, and Description, and click Save. ABEST will automatically assign the Priority field. Click OK to confirm. Refer to the *Detailed Instructions* for details on the required information.

TIP

You can expand the multi-line text fields in the grid shown above by double clicking in the field. Use your keyboard's **Enter** key to start a new line of text. Within a multi-line text field, click **OK** or **Cancel** to move out of the text field. Save your work by clicking **Save**. Each expandable text field has a character counter and identifies the character limit for that text field. An example of a multi-line text field is shown in the following example.

Repeat the previous steps to add additional projects.

Revising Projects – Click in the appropriate fields on the **Higher Education > HE - Capital Construction Assistance Projects Revenue Bond - Projects** grid to modify the project details and click **Save**. Click **OK** to confirm.

Deleting Projects – As shown below, delete projects by clicking the red 'x' in the leftmost position on the grid. Click **OK** in the confirmation window.

Resequencing Projects – Click the ↑↓ arrows to resequence the projects (shown below). Sequence 2 will move to sequence 1 by clicking the up arrow. Another way to re-sequence projects is to change the numbers in the **Priority** column.

CAPITAL CONSTRUCTION ASSISTANCE PROJECTS REVENUE BOND-ISSUANCE HISTORY SCHEDULE

Each issuing entity that is responsible for the issuance of Capital Construction Assistance Projects revenue bond projects should enter data on the **Higher Education** menu and the **HE - Capital Construction Assistance Projects Revenue Bond - Issuance History Schedule** submenu.

- Each system office for those components within systems.

- Each independent institution for those that issue their own bonds or go through the Texas Public Finance Authority.

System offices that issue bonds system-wide for all components should enter data on this submenu for each component institution that has been authorized Capital Construction Assistance Projects revenue bond projects in the past. Refer to the *Detailed Instructions* for additional guidance as needed.

Click the **Higher Education** menu and the **HE - Capital Construction Assistance Projects Revenue Bond - Issuance History Schedule** submenu, as shown below. The data collected here creates the ABEST Schedule 8B report.

RESOLVING CLOSING EDITS AND WARNINGS

Closing edits and warnings will appear on the **Status** screen when you have failed to enter data or you entered the data incorrectly. All closing edits must be resolved before you can change your LAR **Status** to **COMPLETE**, and refer to the main _ABEST Instructions_ for details and guidance on closing edits.

Warnings can also display on the **Status** screen and provide important information about an item in question, but warnings will not prevent you from setting your LAR **Status** to **COMPLETE**. There are LAR ABEST warnings that apply only to institutions. To resolve an institution warning, click a hyperlink displayed in the far-right column for a displayed warning, as shown in the below example. The hyperlink will direct you to the screen location in question, but will not take you to the specific item that could resolve the warning.

The following table can assist you in resolving warnings specific to institutions. Review the identified ABEST schedules that must reconcile to avoid warnings.

GENERATING REPORTS

ABEST can produce several reports based on the LAR data your institution submits. You can generate these reports at any time when your institution's LAR **Status** is set to **INCOMPLETE** or **COMPLETE**. However, *before* printing the final copy of your reports, it is advisable that you complete all your ABEST data entry and change your institution's LAR **Status** to **COMPLETE**.
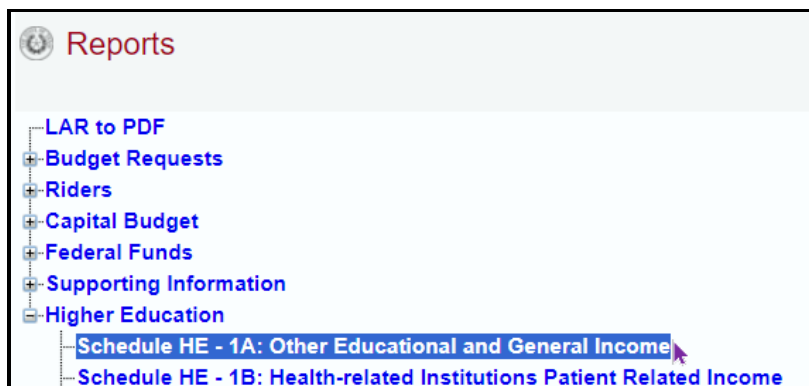

To generate a report from ABEST, click the **Reports** menu, as shown below.

ABEST lists the available reports in sections on the **Reports** screen. To generate a report, click the plus sign (+) to the left of the desired section, as shown in the following graphic.

Click the desired report, as shown in the below example.

The screen view for the selected report will display.

To print the selected report, click the **Print icon**, as shown below.

Select your desired **Print Options** and click **OK**.
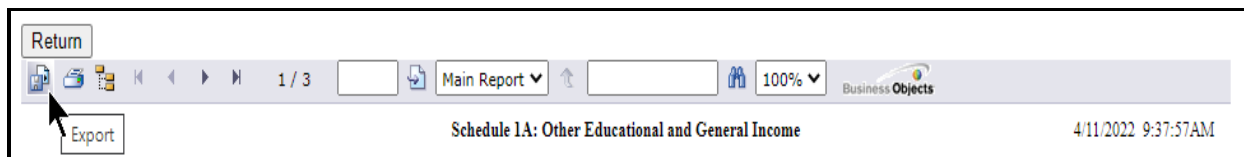

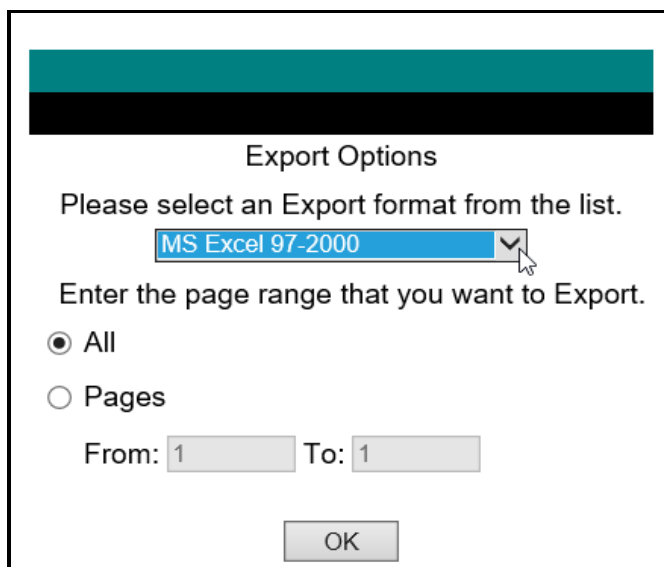

To *export* the selected report, click the leftmost **Export icon** immediately below the **Return** button, as shown below. An **Export Options** window will display.

Select the desired export format from the drop-down list (as shown below) and click **OK**.

The downloaded report will be made available for display and/or filing. **Save** your file as needed. Click **Return** (as shown in the following example) to go back to the **Reports** screen.
For detailed instructions on how to create PDFs of these reports to include within your institution's completed LAR, refer to the main *ABEST Instructions* on the LBB website (www.lbb.texas.gov).
