## TEXAS AT A GLANCE

---

The Republic of Texas was formed in 1836 and continued until 1845. Texas was admitted as the 28th state of the Union on December 29, 1845. The six flags under which Texas has been governed are Spanish (1519–1685, 1690–1821), French (1685–1690), Mexican (1821–1836), Republic of Texas (1836–1845), Confederate States (1861–1865), and United States (1845–1861, 1865–present).

### CONSTITUTIONAL SPENDING LIMITS

Texas has four constitutional limits on spending: the “pay-as-you-go,” or balanced budget limit; the limit on the rate of growth of appropriations from certain state taxes; the limit on welfare spending; and the limit on debt service. The 2012–13 biennial budget is within all of these limits.

#### THE “PAY-AS-YOU-GO” LIMIT

Article III, Section 49a, of the Texas Constitution sets out the “pay-as-you-go” limit. It requires that bills making appropriations be sent to the Comptroller of Public Accounts (CPA) for certification that appropriations are within available revenue. In summer 2011, the Comptroller certified that the 2012–13 General Appropriations Act and other appropriations bills were in compliance with the “pay-as-you-go” limit. The CPA estimated that revenue will exceed spending from General Revenue Funds and General Revenue–Dedicated Funds for the 2012–13 biennium by approximately \$186.4 million.

#### LIMIT ON THE GROWTH OF CERTAIN APPROPRIATIONS

Article VIII, Section 22, of the Texas Constitution limits the biennial rate of growth of appropriations from state tax revenue not dedicated by the Constitution to the estimated rate of growth of the state’s economy. On November 15, 2010, the Legislative Budget Board (LBB) established the following elements of the Article VIII spending limit: the estimated rate of growth of the state’s economy, the level of 2010–11 biennial appropriations from state tax revenue not dedicated by the Texas Constitution, and the resulting 2012–13 biennial limit. The LBB instructed its staff to adjust the level of 2010–11 biennial appropriations from state tax revenue not dedicated by the Constitution and the resulting 2012–13 biennial spending limit calculation to reflect subsequent appropriations certified by CPA and official revenue estimate revisions by CPA.

Actions taken in 2011 by the Eighty-second Legislature affected the 2010–11 biennial level of appropriations from state tax revenue not dedicated by the Texas Constitution. After adjusting for these actions and revenue estimate revisions by the CPA, the adjusted 2012–13 biennial limit on appropriations from state tax revenue not dedicated by the Constitution is \$77.3 billion. Appropriations for the 2012–13 biennium from state taxes not dedicated by the Constitution are estimated to be \$70.4 billion, \$6.9 billion less than the amount of authorized appropriations. The remainder of the state’s \$173.5 billion budget is funded with nontax revenue and constitutionally dedicated tax revenue not subject to the Article VIII limit.

#### WELFARE SPENDING LIMIT

Article III, Section 51-a, of the Texas Constitution provides that the amount that may be paid out of state funds for assistance grants to or on behalf of needy dependent children and their caretakers (i.e., Temporary

---

## SPENDING

Assistance for Needy Families [TANF]) shall not exceed 1 percent of the state budget in any biennium. The total state budget as adopted in House Bill 1 (as modified by other legislation), by the Eighty-second Legislature, is \$173.5 billion. Accordingly, the 1 percent welfare spending limit is \$1.7 billion. The total amount of state funds appropriated for TANF grants is \$134.7 million, which is \$1,600.1 million less than the 1 percent limit.

### DEBT LIMIT

Article III, Section 49(j) of the Texas Constitution limits the authorization of additional state debt if in any fiscal year the resulting annual debt service payable from the unrestricted General Revenue Fund—which excludes revenues constitutionally dedicated for purposes other than payment of state debt—exceeds 5 percent of the average annual unrestricted General Revenue Funds for the previous three years. To monitor the constitutional limit, the Bond Review Board (BRB) calculates two debt ratios. The first debt ratio is the debt service on outstanding (issued) debt as a percentage of unrestricted General Revenue Funds, and for the end of fiscal year 2011, the issued debt calculation is 1.35 percent, which is a slight decrease from the fiscal year 2010 calculation of 1.36 percent. The second debt ratio is the debt service on outstanding debt, plus estimated debt service for authorized but unissued debt as a percentage of unrestricted General Revenue Funds. For this second ratio, at the end of fiscal year 2011, BRB determined that the state is at 3.70 percent of General Revenue Funds, reflecting a decrease from the fiscal year 2010 calculation of 4.10 percent.

Any significant change in any of the following three components will affect the constitutional debt limit: (1) the amount of General Obligation (GO) debt authorized by voters; (2) the three-year average of unrestricted General Revenue Funds; and (3) interest rates on issued GO bond debt. The fiscal year 2011 debt limit ratio for issued and authorized but unissued debt decreased by 40 basis points from fiscal year 2010. This ratio decrease is partially due to increased unrestricted General Revenue Funds in fiscal year 2011, which resulted in a higher three-year average of available funds. The decrease is also partially the result of GO debt issuances in excess of \$1.0 billion by the Texas Department of Transportation for highway construction and by the Texas Public Finance Authority for cancer research. When these bonds were issued, it resulted in lower interest rates than previously estimated, thus lowering the amount of debt service required.

### STATE INDEBTEDNESS

Texas continues to have a low state debt burden compared with other states, ranking last among the 10 most-populous states in state debt per capita in 2009, according to the U.S. Census Bureau. The U.S. Census Bureau further indicates Texas' per capita debt burden was \$1,228 in 2009 while the U.S. average was \$3,404.

## SPENDING

---

Texas had approximately \$36.2 billion in state bonds outstanding as of August 31, 2011. This total reflects debt outstanding by state agencies, excluding approximately \$4.3 billion in revenue conduit issuances. In a conduit issuance, the issuer (the state) issues on behalf of a third-party borrower whose project generally has a public benefit, such as a housing project. When a state agency issues as a conduit issuer it has no legal obligation to repay the bond because the bond is backed by the third-party borrower's credit or funds. General Obligation (GO) bonds, which depend on the General Revenue Fund for debt service, account for an estimated 34.7 percent of the total bonds outstanding. Non-GO, or revenue, bonds comprise the remaining 65.3 percent. Approximately 72.8 percent of the outstanding GO bond indebtedness is designed to be self-supporting, although the full faith and credit of the state is pledged for its payment.

Debt service costs included in the state budget for the 2012–13 biennium total \$3,265.5 million, or 1.9 percent of total appropriations. The increase in debt service costs from the 2010–11 biennial level is \$530.6 million, or 19.4 percent, and is primarily due to increases in debt service requirement out of the State Highway Fund for highway improvements and water projects. Included in the debt service costs are approximately \$24.9 million in General Revenue Funds to the Texas Public Finance Authority for debt service related to \$600 million in GO bond proceeds for cancer prevention and research initiatives, and \$132.4 million for courthouse preservation grants, deferred maintenance, and critical repair capital projects; approximately \$129.4 million in General Revenue Funds to the Texas Department of Transportation for debt service related to \$4 billion in GO bond proceeds for highway construction; and approximately \$14.9 million in General Revenue Funds to the Texas Water Development Board for debt service on \$300 million in GO bond proceeds for the Water Infrastructure Fund and the Economically Distressed Areas Program water programs. Additionally, the Eighty-second Legislature, Regular Session, 2011, appropriated the University of Texas Medical Branch (UTMB) at Galveston \$11 million in General Revenue Funds (House Bill 4), for the reimbursement of debt service for an amount not to exceed \$150 million in Tuition Revenue Bonds authorized by House Bill 51, Eighty-first Legislature, Regular Session, 2009, for the recovery and reconstruction of UTMB.

Debt service appropriations include a biennial increase of \$78.4 million in General Revenue–Dedicated Funds, primarily due to the enactment of Senate Bill 1, Eighty-second Legislature, First Called Session, 2011, related to the use of certain Tobacco Settlement funds for debt service for cancer prevention and research bonds on existing and future issuances.

# SUMMARY OF STATE FUNCTIONAL AREAS

## GENERAL GOVERNMENT

### 2012-13 BIENNIAL FUNDING HIGHLIGHTS

Appropriations for the 2012-13 biennium of \$4.5 billion decreased from the 2010-11 biennium by \$557.3 million, or 11.1 percent, in All Funds. This decrease is primarily related to the elimination of one-time funds from the American Recovery and Reinvestment Act of 2009 for Fiscal Programs – Comptroller of Public Accounts, and reductions to various grant programs at the Trusteed Programs within the Office of the Governor.

Appropriations for state employee group insurance benefits total \$2.7 billion and, in addition state agencies and institutions of higher education participating in the Group Benefits Program are required to contribute an amount equal to 1.0 percent of their total base wages and salaries for each benefits-eligible employee to help fund group health insurance, estimated to generate an additional \$160 million contribution toward group insurance.

The state contribution for employees' retirement is 6.0 percent in fiscal year 2012 and 6.5 percent in fiscal year 2013 as compared to 6.95 percent each fiscal year of the 2010-11 biennium. Contributions from state employees will remain at 6.5 percent during the 2012-13 biennium.

Debt service requirements for existing and new General Obligation bonds issued by the Texas Public Finance Authority total \$606.6 million.

### SELECTED FACTS

According to the 2010 National Association of State Retirement Administrators Public Fund Survey, the Texas Employees Retirement System (ERS) ranks 33rd in size with an asset market value of \$20.5 billion, and ERS also ranks 33rd in size in total membership (active plus annuitants) with 222,973 members.

According to the U.S. Census Bureau, Texas' state debt burden ranks last among the 10 most-populous states in debt per capita in 2009.

Texas' constitutional debt limit is 5 percent of the average annual unrestricted General Revenue Funds for the previous three years. For fiscal year 2011, the outstanding (issued) debt calculation is 1.35 percent and the authorized but unissued debt calculation is 3.70 percent.

## SUMMARY OF STATE FUNCTIONAL AREAS

### HEALTH AND HUMAN SERVICES

#### 2012-13 BIENNIAL FUNDING HIGHLIGHTS

Appropriations for the 2012-13 biennium increased by \$1.2 billion in General Revenue Funds and General Revenue-Dedicated Funds and decreased by \$10.0 billion in All Funds from the previous biennium. This increase in General Revenue Funds and General Revenue-Dedicated Funds reflects an increased demand for General Revenue Funds due to the end of the federal stimulus-related temporary increase in the federal match for Medicaid; increases in Medicaid expenditures; and fully funding foster care, adoption subsidies, and permanency care assistance caseloads. A decrease in All Funds, including General Revenue Funds, offsets those demands through cost containment initiatives, provider reimbursement rate reductions, and the under-funding of Medicaid.

Appropriations for the 2012-13 biennium include \$17.1 billion in General Revenue Funds and General Revenue-Dedicated Funds and \$40.6 billion in All Funds for the Medicaid program; \$142.0 million in General Revenue Funds and \$726.2 million in Federal Funds for Temporary Assistance for Needy Families (TANF)-related programs; and \$597.1 million in General Revenue Funds, and \$2.0 billion in All Funds for the Children's Health Insurance Program (CHIP).

Senate Bill 7, Eighty-second Legislature, First Called Session, 2011, authorizes Medicaid cost containment initiatives, repeals the prohibition on Medicaid managed care in certain counties, authorizes inclusion of prescription drugs in Medicaid managed care contracts, and restricts the use of family planning funds.

In fiscal year 2013, Health and Human Service appropriations are projected to support services for 3.7 million acute care Medicaid recipients per month (73.0 percent are children), 588,476 children per month through CHIP and related programs, and 125,152 TANF clients per month. Other fiscal year 2013 projections include: the average number of Medicaid nursing home clients per month is 56,223; the average net monthly facility cost per resident is \$2,951; the number of completed child abuse/neglect investigations is 171,762; and the number of confirmed cases is 39,437.

# SUMMARY OF STATE FUNCTIONAL AREAS

## PUBLIC EDUCATION

### 2012-13 BIENNIAL FUNDING HIGHLIGHTS

Appropriations for the 2012-13 biennium decreased from the 2010-11 biennium by \$2,988.9 million, or 5.6 percent, in All Funds.

Appropriations for public school operations and facilities through the Foundation School Program (FSP) total \$35.5 billion in All Funds, a decrease of \$1.9 billion compared to 2010-11, reflecting the deferral of the final payment for fiscal year 2013 to fiscal year 2014. The FSP appropriation reflects legislation enacted by the Eighty-second Legislature, First Called Session, 2011, reducing school district entitlements by \$4.0 billion compared to what they otherwise would have earned in the 2012-13 biennium under prior law.

The Texas School for the Blind and Visually Impaired and the Texas School for the Deaf are experiencing increased student enrollment for the 2011-12 school year, particularly among students ages 18 to 22 who are extending their education through transition services and independent living services.

Appropriations for the 2012-13 biennium provide \$3.8 billion to the Teacher Retirement System to support retirement and insurance benefits to TRS-covered employees.

### SELECTED FACTS

Public education funding supports the second largest school-age population in the country, with an estimated 4.6 million students. Students are served in 1,029 school districts, 8,044 regular campuses, and 482 charter school campuses across the state.

In the 2001-02 school year, Hispanics surpassed Anglos as the largest ethnic group enrolled in Texas public schools. In the 2010-11 school year, Hispanic students comprised 50 percent of enrollment compared to 31 percent for Anglos, 13 percent for African American students, and 6 percent for Asian students and other ethnic groups.

## HIGHER EDUCATION

### 2012-13 BIENNIAL FUNDING HIGHLIGHTS

Appropriations for the 2012-13 biennium decreased from the 2010-11 biennium by \$555.8 million, or 2.5 percent, in All Funds. Reductions in General Revenue Funds were offset by increases in Other Funds (primarily patient income at the health related institutions). Reductions in General Revenue Funds consisted of formula funding, group health insurance and financial aid programs at the Higher Education Coordinating Board. (This includes funds related to benefits for higher education employees.)

Appropriations for the 2012-13 biennium include \$4,254.0 million in General Revenue Funds for the general academic institutions and system offices; \$2,245.9 million for health-related institutions; \$1,749.4 million for public community and junior colleges; and \$967.6 million for higher education group insurance. Funding for financial assistance programs includes \$559.5 million in General Revenue Funds for the TEXAS Grants I Program and \$168.8 million General Revenue Funds for Tuition Equalization Grants.

### SELECTED FACTS

The Texas system of public higher education encompasses 38 general academic teaching institutions; three lower-division institutions; 50 community and junior college districts; one technical college with four main campuses; nine health-related institutions, including seven state medical schools; three dental schools; and numerous other allied health and nursing units.

Approximately 1.4 million students were enrolled in public higher education institutions in fall 2010.

The target for percentage of students graduating from public universities in six years or less is 57 percent in fiscal year 2012.

The target for percentage of students graduating from public universities in four years or less is 27.2 percent in fiscal year 2012.

## THE JUDICIARY

### 2012-13 BIENNIAL FUNDING HIGHLIGHTS

Appropriations for the 2012-13 biennium decreased from the 2010-11 biennium by \$29.8 million, or 4.4 percent, in All Funds.

Appropriations for the 2012-13 biennium include \$87.6 million for operations at the 16 appellate courts. The funding provides for attorneys, court clerks, other necessary staff, and operating expenses that should allow each court to attain or exceed court performance targets. For the 2012-13 biennium, appropriations to the Supreme Court for Basic Civil Legal Services for income-eligible Texans total \$49.3 million in All Funds, an increase of \$4 million from 2010-11 spending levels. This increase is contingent on the outcome of litigation and the collection of revenues in excess of the 2012-13 Biennial Revenue Estimate for the adult entertainment fee. For the Office of Court Administration, the Eighty-second Legislature appropriated \$62.3 million in General Revenue-Dedicated Funds from the Fair Defense Account for criminal defense legal services for income-eligible Texans, a decrease of nearly \$0.4 million or less than 1 percent compared to the 2010-11 biennial spending levels.

### SELECTED FACTS

The Texas Legislature funds salaries and operating costs for the Supreme Court of Texas, the Court of Criminal Appeals, and the 14 courts of appeals. Salaries of district judges, visiting judges, and district attorneys; expenses of the district attorneys' offices; and witness fees and salary supplements for county court judges and county prosecutors are funded through the Comptroller's Judiciary Section.

The case disposition rate for the Supreme Court of Texas was 102.4 percent in fiscal year 2011. The case disposition rate for petitions for discretionary review granted by the Court of Criminal Appeals was 102 percent in fiscal year 2011.

## SUMMARY OF STATE FUNCTIONAL AREAS

### PUBLIC SAFETY AND CRIMINAL JUSTICE

#### 2012-13 BIENNIAL FUNDING HIGHLIGHTS

Public Safety and Criminal Justice appropriations for the 2012-13 biennium decreased from the 2010-11 biennium by \$565.5 million, or 4.7 percent, in All Funds. Reductions are attributed to a variety of factors including a General Revenue Funds reduction of \$416.2 million, an estimated Federal Funds

reduction of \$269.6 million, and offsetting increases of \$96.0 million in General Revenue-Dedicated Funds and \$24.3 million in Other Funds.

Appropriations for the 2012-13 biennium include \$4.8 billion in All Funds for the incarceration of adults by the Department of Criminal Justice; \$664.0 million in All Funds for juvenile justice services, programs, and incarceration primarily through the Juvenile Justice Department; and \$430.4 million in All Funds for the Department of Public Safety's traffic/commercial vehicle enforcement.

#### SELECTED FACTS

The 2012-13 biennium begins with 156,526 adults and 1,567 juveniles incarcerated in the state's correctional system.

A total population of 265,507 offenders was under direct community supervision (adult probation) at the end of fiscal year 2011. A total population of 81,175 offenders was actively supervised on parole.

Texas' Index Crime Rate has shown a marked decrease since the late 1980s. The Index Crime Rate reached a high of 8,020 crimes per 100,000 population in 1988. In 2010, the most recent year for which data are available, the rate was 4,236 crimes per 100,000 population.

## SUMMARY OF STATE FUNCTIONAL AREAS

### NATURAL RESOURCES

#### 2012-13 BIENNIAL FUNDING HIGHLIGHTS

Appropriations for the 2012-13 biennium increased from the 2010-11 biennium by \$326.1 million, or 9.2 percent, in All Funds primarily due to the transfer of the Community Development Block Grant disaster recovery function from the Texas Department of Rural Affairs (TDRA) and the Texas Department of Housing and Community Affairs to the General Land Office and the transfer of TDRA's non-disaster recovery functions to Texas Department of Agriculture. Appropriations for the 2012-13 biennium to Natural Resource agencies out of General Revenue Funds and General Revenue-Dedicated Funds represent a \$397.8 million decrease, or a 19.7 percent decline from 2010-11 biennial spending levels. The majority of the funding reductions occur in grant programs, the largest single decrease comprised of \$98.3 million in funding to the Texas Commission on Environmental Quality out of the General Revenue-Dedicated Texas Emissions Reduction Plan Account for diesel emission reduction and other grants.

#### SELECTED FACTS

Among the 50 states, Texas ranks first in the number of farms and total farm land acreage, first in the production of crude oil, second in total toxic air emissions, seventh in the number of hazardous waste sites on the National Priority List, and twentieth in the number of state parks, recreation areas, and natural areas.

According to the State Climatologist, Texas experienced the most intense one-year drought since 1895 during the 2010-11 biennium. The drought has resulted in a \$5.2 billion loss to Texas agriculture, making it the most costly drought on record, according to the Texas AgriLife Extension Service.

# SUMMARY OF STATE FUNCTIONAL AREAS

## BUSINESS AND ECONOMIC DEVELOPMENT

### 2012-13 BIENNIAL FUNDING HIGHLIGHTS

Appropriations for the 2012-13 biennium increased from the 2010-11 biennium by \$464.2 million, or 2 percent, in All Funds.

The 2012-13 biennial appropriations include an increase of \$3.9 billion in All Funds for the Texas Department of Transportation (TxDOT) in appropriations from General Obligation bond proceeds and State Highway Funds for highway improvements, maintenance, and preservation.

Appropriations for the 2012-13 biennium include a decrease of \$2.4 billion in All Funds for the Texas Department of Housing and Community Affairs. This includes a decrease of \$1.1 billion from the American Recovery and Reinvestment Act (ARRA) Funds and \$1.2 billion in other Federal Funds which will no longer be available.

Appropriations for the 2012-13 biennium include a decrease of \$831.5 million, or 99.1 percent, in All Funds for the Texas Department of Rural Affairs. The Eighty-second Legislature, First Called Session, 2011, passed legislation that transferred Community Development Block Grant disaster funds (\$17.8 million) to the General Land Office on September 1, 2011 and transfers all other appropriations not used to phase out the agency to the Texas Department of Agriculture on October 1, 2011.

Appropriations for the 2012-13 biennium include a decrease of \$191.6 million in All Funds for the Texas Workforce Commission. This includes net decreases of \$117.6 million in Federal Funds (a decrease of \$152.5 million in ARRA funds offset by \$34.9 million increase in other Federal Funds), \$60.6 million in General Revenue Funds, and \$13.4 million in Other Funds.

### SELECTED FACTS

The state retained over \$1 billion in gross receipts from lottery ticket sales, making it fourth in net revenues retained in the nation.

TxDOT contracted for 1,929 highway construction projects during the 2010-11 biennium. Over 21.9 million vehicles were registered in Texas in fiscal year 2011.

## SUMMARY OF STATE FUNCTIONAL AREAS

### REGULATORY

#### 2012-13 BIENNIAL FUNDING HIGHLIGHTS

Appropriations for the 2012-13 biennium decreased from the 2010-11 biennium by \$58.2 million, or 7.9 percent, in All Funds.

The Department of Insurance was appropriated \$220.6 million in All Funds, which includes a decrease of \$30.7 million from the 2010-11 biennium, for the regulation of the insurance industry and to promote safe and healthy workplaces while ensuring the appropriate delivery of workers' compensation benefits. Approximately \$186.7 million, or 84.6 percent, of these appropriations are funded with maintenance tax revenues. The decrease in funding is primarily attributable to reductions for the Healthy Texas Program (\$34.8 million) which allowed health benefit plan issuers to receive reimbursements from claims paid for individuals covered under qualifying group health plans. This reduction is offset by interagency contract increases with the Health and Human Services Commission of \$2.9 million from the State Health Access Program for the same purpose and unexpended balance authority from remaining Healthy Texas Program funds that were not yet expended at the end of fiscal year 2011.

The Public Utility Commission was appropriated \$178.8 in All Funds for the 2012-13 biennium, including \$167.4 million in General Revenue-Dedicated Funds from the System Benefit Fund. Of the total General Revenue-Dedicated Funds, \$152.2 million was allocated to provide energy assistance for certain low-income electric customers, \$13.7 million is for market oversight and administration, and \$1.5 million is for customer education.

#### SELECTED FACTS

Texas has 24 regulatory agencies which regulate a wide range of industries and occupations, including insurance, telecommunications, electric utilities, securities, financial institutions, real estate, health-related occupations, and pari-mutuel racing.

In fiscal year 2011, the number of individuals licensed, registered, or certified by the state totaled 1,756,586. This number is anticipated to increase to 1,861,692 in fiscal year 2012 and 1,893,380 in fiscal year 2013.

### 2012-13 BIENNIAL FUNDING HIGHLIGHTS

Appropriations for the 2012-13 biennium of \$339.4 million for the Texas Legislature decreased from the 2010-11 biennium by \$29.3 million, or 7.9 percent, in All Funds.

### SELECTED FACTS

Texas became the twenty-eighth state admitted to the Union on December 29, 1845. The First Legislature convened in February 1846 and adjourned in May of that year.

The Legislature convenes in Austin for a 140-day regular session every two years in odd-numbered years. The Governor may call additional 30-day special sessions, as needed, in which the Legislature may consider only the subjects submitted to it by the Governor.

The Senate consists of 31 senators elected to four-year overlapping terms of office. The Lieutenant Governor, an elected official, is the presiding officer of the Senate and serves a four-year term.

The House of Representatives consists of 150 representatives elected in even-numbered years to two-year terms of office. At the beginning of each regular session, the House elects a Speaker of the House from its members to serve as its presiding officer.

Texas ranks eleventh in the number of state legislative members, with 181 members, which represents an average of 139,301 residents per legislator; well above the national average of 41,783 residents per legislator.

Texas Legislators receive an annual salary of \$7,200. While in session, their per diem rate (fiscal year 2011) is \$150.
