## Section 3

### Department of Aging and Disability Services Selected Fiscal and Policy Issues - Senate

**Person-first language.** House Bill 1481, Eighty-second Legislature, requires use of Person First Respectful Language by the legislature and health and human services agencies. Terminology in the Department of Aging and Disability Services' bill pattern has been updated as follows:

- Mental Retardation (MR) --> Intellectual Disability (ID)
- Intermediate Care Facilities for Persons with Mental Retardation ICF-MR) --> Intermediate Care Facilities for Individuals with Intellectual Disabilities (ICF/IID)

#### Medicaid

1. **Supplemental Need in FY 2012-13.** Based on LBB caseload and cost assumptions, the shortfall at DADS is **\$1,019.1 million** in General Revenue funds.
2. **Caseload.** Caseload adjustments result in a decrease of **\$28.4 million** in General Revenue funds from the 2012-13 base.
  - Recommendations maintain growth that occurred during fiscal years 2012-13 and do not include funding to support continued growth during fiscal years 2014-15 (estimated to be **\$60.5 million** in General Revenue funds, \$148.1 million in All Funds).
  - Expansion of STAR+PLUS services in March 2012 to the El Paso, Lubbock, and South Texas service areas resulted in lower caseloads at DADS in A.2.1, Primary Home Care, A.2.3, Day Activity and Health Services, A.3.1, Community-based Alternatives, and A.6.4, Promoting Independence Services. STAR+PLUS expansion is reflected for 24 months in 2014-15 but only 18 months in 2012-13 due to the March 2012 implementation. Caseload reductions in those programs offset other General Revenue demand in fiscal years 2014-15.
  - Recommendations assume elimination of the Consolidated Waiver Program in fiscal year 2012 and transfer of 156 clients and related funding to other DADS and HHSC strategies. Ongoing expenditures for these clients are reflected in those strategies.
3. **Cost.** The recommendations include a net **\$21.8 million** General Revenue increase in fiscal years 2014-15 related to cost adjustments. Recommendations do not include cost growth for fiscal years 2014-15 except for Skilled Nursing Facilities (increase in average daily rate due to federally projected Medicare Inpatient Hospital Deductible).
  - Recommendations maintain projected fiscal year 2013 average cost except for A.6.1, Nursing Facility Payments and A.6.3, Hospice, where the (higher) projected August 2013 average daily rate is maintained.
  - Cost Containment: DADS has not achieved all of the cost savings assumed in the General Appropriations Act for fiscal years 2012-13. Not all cost containment items were implemented fully. Recommendations assume continuation of FY 2011 and FYs 2012-13 cost containment measures and rate reductions that were implemented.
4. **Federal Medical Assistance Percentage (FMAP).** Federal participation rates for state-administered programs are more favorable in federal fiscal year 2014 than fiscal year 2012 and less favorable in federal fiscal year 2015 than fiscal year 2013. The net adjustment is a **\$35.7 million** increase in General Revenue and a like decrease to Federal Funds. The final federal fiscal year 2015 rate has not been established and may change.

## Section 3

### Department of Aging and Disability Services Selected Fiscal and Policy Issues - Senate

5. **Quality Assurance Fees (QAF).** Recommendations include use of \$110.0 million in QAF anticipated revenues in strategy A.7.1, Intermediate Care Facilities for Individuals with Intellectual Disabilities, and not also in A.8.1, State Supported Living Centers (net neutral General Revenue fund impact). Recommendations also modify the QAF rider (new rider number 25) to require the agency to request approval to spend QAF funds above the Biennial Revenue Estimate.
6. **State Supported Living Center (SSLC) Reduction.** Recommendations reduce SSLC funding by \$39.5 million in All Funds from the fiscal years 2012-13 base. The All Funds reduction was calculated by reducing an assumed variable portion of the adjusted budgeted fiscal year 2013 expenditures (All Funds) based on projected census reduction.
  - The reduction in 2014-15 assumes that a portion of SSLC expenditures includes variable costs (10 percent) and should be reduced proportionately as the census decreases. The average monthly SSLC system census has declined by 24.4 percent since fiscal year 2002 and is projected to decline by 5.7 percent in fiscal year 2014 and an additional 6.0 percent in fiscal year 2015.
  - With the recommendations, the expenditures available per resident will increase from \$174,574 in fiscal year 2013 to \$194,748 in fiscal year 2015 (11.6% increase).
7. **Balancing Incentive Program.** Texas qualified to earn a 2 percent enhanced FMAP on Medicaid non-institutional long-term services and supports from October 1, 2012 to September 30, 2015. Freed-up General Revenue as a result of the enhanced federal funds may be used for “new or expanded offerings of non-institutionally based long-term services and supports under the State Medicaid program.” The General Revenue freed-up due to the enhanced federal funds at DADS and the Health and Human Services Commission (HHSC), estimated to be \$205.0 million in fiscal years 2014-15 (estimated \$125 million at HHSC and \$80 million at DADS), has been removed from the strategies where it would be earned and deposited in strategy A.10.1, Balancing Incentive Program.

Strategies eligible to earn the enhanced FMAP at DADS include:

- A.2.1, Primary Home Care
- A.2.2, Community Attendant Services
- A.2.3, Day Activity and Health Services
- A.3.1, Community-based Alternatives
- A.3.2, Home and Community-based Services
- A.3.3, Community Living Assistance and Support Services
- A.3.4, Deaf-Blind Multiple Disabilities
- A.3.5, Medically Dependent Children Program
- A.3.6, Texas Home Living Waiver
- A.5.1, Program of All-Inclusive Care for the Elderly

Note: Some portion of A.1.1, Intake, Access, & Eligibility and A.6.4, Promoting Independence Services may be eligible for the enhanced match but that is not included in these recommendations.

## Section 3

### Department of Aging and Disability Services Selected Fiscal and Policy Issues - Senate

#### Decision-points include:

- Level of control over HHS enterprise agencies' ability to spend freed-up General Revenue; and,
- Which projects to fund (see Supplemental Schedule #1 for options).

8. **Preadmission Screening and Resident Review (PASRR)**. The recommendations do not fund assessments and additional services/therapies related to the PASRR process as reflected in DADS' base request in strategy A.6.1, Nursing Facility Payments (\$9.3 million in General Revenue Funds, \$18.8 million in All Funds) due to uncertainty of implementation in fiscal years 2014-15.

#### Non-Medicaid

9. **Home and Community Support Service Agencies Licensing Fees**. The recommendations maximize use of anticipated balances in General Revenue-Dedicated Home Health Services Account No. 5018 in lieu of General Revenue (increase of \$16.9 million) in strategy B.1.1, Facility and Community-based Regulation. This increase would help reduce reliance on GR-Dedicated Account No. 5018 for certification purposes. This recommendation is related to the LBB staff report of strategies to reduce reliance on GR-D accounts for certification.
10. **Local Authority System**. A Government Effectiveness and Efficiency Report entitled "An Overview of State-Funded Services for Persons with Intellectual and Developmental Disabilities in Texas" discusses functions performed by local authorities and the major budget and policy issues affecting the local authority system.
11. **Data Center Services**. Recommendations increase funding in strategy C.1.2, IT Program Support, in order to meet current demand for Data Center Services costs under the Department of Information Resources. The cost for maintaining current obligations is **\$0.5 million** in General Revenue Funds (**\$1.3 million** in All Funds).

Note: Amounts shown may sum greater/less than actual total due to rounding.

**Supplemental Schedule #1**  
**Options to Spend Freed-Up General Revenue available due to Balancing Incentive Program - Senate**

Priority	Options	Notes on Options	Fiscal Years 14-15 Cost Estimate	Notes on Funding
1	Mandatory BIP Compliance Activities	<p>Completion of structural reforms are required to obtain BIP funding. The 3 areas of structural reforms include:</p> <ul style="list-style-type: none"> <li>• No wrong door/single point of entry system,</li> <li>• Conflict-free case management services, and</li> <li>• Core standardized assessment instruments.</li> </ul> <p>DADS developed the agency's specific implementation plan in December 2012. Projects included IT enhancements to connect functional and financial eligibility systems across agencies (HHSC, DADS, DSHS) and expansion of Aging and Disability Resource Centers statewide.</p>	TBD	
2	Implementation of new standard assessment tool in IDD programs (See GEER report)	<p>Recommendations include: 1. Amend statute to require DADS to implement an automated standard functional assessment tool across state programs serving clients with intellectual and developmental disabilities. 2. Amend statute to require DADS to implement a resource allocation methodology in the Home and Community-based Services waiver program. 3. Include a contingency rider (included in introduced bill as DADS Rider 33) that appropriates \$1.5 million General Revenue for the biennium to implement the standard tool and resource allocation methodology and requires DADS to issue a report to the LBB and the Governor. One of the three required BIP structural reforms is related to the assessment processes used in community-based programs.</p>	<p>\$3.0 million All Funds  \$1.5 million General Revenue</p>	<p>Additional costs of \$1.75 million All Funds (\$875,000 General Revenue) expected in fiscal years 2016-17</p>
3	Transition assistance and crisis stabilization services for persons exiting State Supported Living Centers	<p>DADS' report "Physical and Behavioral Health Services in the Home and Community-Based Services and Community Living Assistance and Support Services Medicaid Waiver Programs- Exploring the Capacity to Serve Individuals with Complex Needs in the Community" published in April 2012 discusses barriers to successful transition to the community for residents of SSLCs. Resources to assist in the transition and stabilize crises that occur in the community could avoid reinstitutionalizations and decrease costs.</p>	TBD	<p>Could be one-time sum-certain initiative or phased-out in future years.</p>

**Supplemental Schedule #1**  
**Options to Spend Freed-Up General Revenue available due to Balancing Incentive Program - Senate**

Priority	Options	Notes on Options	Fiscal Years 14-15 Cost Estimate	Notes on Funding
<b>4</b>	Expansion of Community Programs	<p>See DADS' exceptional items #5 and #6. Options are all scalable depending on the number of slots or total spending desired.</p> <p>Options could include:  -Dedicating certain numbers of slots to specific populations - This could include diversion/crisis slots and slots for foster children aging out of care.  -Promoting Independence slots - This could include persons exiting large ICFs/IID, SSLCs, children aging out of foster care. DADS has proposed to include slots for persons with IDD coming out of or diverted from nursing facilities (new population; related to the PASRR lawsuit).</p> <p>Cost estimate prepared by LBB.</p>		<p>State could reverse in future years if funding was not available but could be difficult.</p> <p>Attrition would provide some flexibility in reversing funding.</p>
<b>4a</b>	Home and Community Based Services (100 slots)	As of August 2012, HCS has the longest wait (9+ years) of the waiver programs and the largest number of persons waiting for services ( <b>60,196</b> ), according to DADS. An option for funding waiver slots may be to prioritize programs with the longest wait.	\$3.7 million All Funds \$2.6 million General Revenue	
<b>4b</b>	Community Living Assistance and Support Services (100 slots)	As of August 2012, CLASS has <b>43,607</b> persons on the interest list and the wait is 8-9 years, according to DADS.	\$2.5 million All Funds \$1.8 million General Revenue	
<b>4c</b>	Community Based Alternatives (100 slots)	<p>Because CBA services are an entitlement in STAR+PLUS areas for certain low-income persons, it may be desirable to fund more CBA slots than STAR+PLUS CBA slots because interest lists in non-STAR+PLUS areas include persons from 0-200% SSI limit whereas the STAR+PLUS lists only include persons between 100-200% of the SSI limit.</p> <p>As of August 2012, there are <b>11,912</b> persons on the CBA interest list and the wait time is 1-2 years, according to DADS.</p> <p>Funding additional CBA slots will reduce demand for Community Attendant Services.</p>	\$0.9 million All Funds \$0.7 million General Revenue	
<b>4d</b>	STAR+PLUS HCBS (Medical Assistance Only) 50 slots	<p>As of August 2012, there are <b>12,490</b> persons on the interest list and the wait is 3-4 years (for most persons), according to DADS.</p> <p>Funding additional CBA slots will reduce demand for Community Attendant Services.</p>	\$0.9 million All Funds \$0.7 million General Revenue	
<b>4e</b>	Medically Dependent Children Program (25 slots)	As of August 2012, there are <b>25,668</b> persons on the interest list and the wait is 5-6 years, according to DADS.	\$0.3 million All Funds \$0.2 million General Revenue	

**Supplemental Schedule #1**  
**Options to Spend Freed-Up General Revenue available due to Balancing Incentive Program - Senate**

Priority	Options	Notes on Options	Fiscal Years 14-15 Cost Estimate	Notes on Funding
<b>4f</b>	Deaf Blind Multiple Disabilities (5 slots)	There may not be a need to fund additional DBMD slots given that many persons on the interest list have previously turned down a slot when it was offered and the wait time for the program is shorter than other programs.	\$0.2 million All Funds \$0.1 million General Revenue	
<b>4g</b>	Texas Home Living (100 slots)	If HCS slots are funded, there may not be a need to fund additional TxHmL slots because persons receiving TxHmL services may take HCS slots which would free up TxHmL slots.  In addition, in the 2012--13 biennium, DADS had approximately 1,200 unfilled slots in this program and could not identify additional persons served with General Revenue-funded services to refinance into the program or persons on the HCS interest list willing to enroll in the program.	\$0.6 million All Funds \$0.4 million General Revenue	
<b>5</b>	Program of All-Inclusive Care for the Elderly (PACE)	See DADS' exceptional item #9. Any expansion of slots and/or sites would earn additional BIP funds, increasing the size of Texas' BIP award.	TBD. Fiscal impact varies depending on approach to implementation.	
<b>6</b>	\$0.50/hour wage enhancement for direct care staff in community programs (not institutions)	See HHSC's exceptional item #9. Funding would provide an across-the-board \$0.50 cent per hour increase for fiscal years 2014--15 to attendants assisting Medicaid clients in community settings at DADS and HHSC (i.e., personal care services).  Increasing wages could increase worker recruitment and retention which could improve the quality of care.  This option is scalable.  Cost estimate prepared by HHSC.	\$536.4 million All Funds \$223.3 million General Revenue	State could reverse in future years if funding was not available.  Sum certain appropriation could be provided to increase rate enhancement levels or amounts.

**Supplemental Schedule #1**  
**Options to Spend Freed-Up General Revenue available due to Balancing Incentive Program - Senate**

Priority	Options	Notes on Options	Fiscal Years 14-15 Cost Estimate	Notes on Funding
7	Community First Choice program	<p>See DADS' exceptional item #6b. The Community First Choice Option (Section 10202 of the Affordable Care Act) became effective October 1, 2011 as a new state plan option, Section 1915(k), for providing community-based attendant and habilitation services to persons eligible for nursing facilities/ICFs/IID with incomes up to 150 percent FPL. A state with an approved state plan amendment would receive a 6 percent enhanced Federal Medical Assistance Percentage for an indefinite time period. The additional 2 percent BIP enhanced federal funding would be additive to the 6 percent.</p> <p>The program would create a new entitlement. Services must be provided to all eligible persons statewide and interest or waiting lists may not be used. There is a maintenance of effort requirement that the state must spend at least what the state was spending the year prior to implementation of CFC.</p> <p>The cost estimate was prepared by DADS and assumes a caseload of 11,902. Because Texas already offers attendant care services, the CFC option would enable Texas to receive an enhanced match for current services. However, because comparable habilitation services are not provided to persons with IDD, the demand for these services is unknown and would represent new spending.</p>	<p>\$371.4 million All Funds \$41.7 million General Revenue</p>	<p>Once in the state plan, this would be an entitlement program that would result in ongoing costs. The program could be eliminated through a state plan amendment.</p>

Section 4

Department of Aging and Disability Services (DADS)  
Performance Review and Policy Report Highlights - Senate

Reports & Recommendations	Report Page	Savings/ (Cost)	Gain/ (Loss)	Fund Type	Included in Introduced Bill	Action Required During Session
<b>Leverage the State Inspection Process to Increase Person-Centered Care in Nursing Facilities</b>	208					
1. Include a rider that directs DADS to implement and evaluate a Person-Centered Care pilot project modeled on the Rhode Island Individualized Care Pilot project that uses the regulatory inspection process to enhance nursing facility providers’ knowledge and implementation of person-centered care practices and culture change models of care.					Rider 31	
<b>Improve Assessment and Resource Use in Community Programs</b>	192					
1. Amend statute to require DADS to implement an automated standard functional assessment tool across state programs serving clients with intellectual and developmental disabilities. 2. Amend statute to require DADS to implement a resource allocation methodology in the Home and Community-based Services waiver program. 3. Include a contingency rider that appropriates \$1.5 million General Revenue for the biennium to implement the standard tool and resource allocation methodology and requires DADS to issue a report to the LBB and the Governor.		(\$1,500,000)		GR	Contingency Rider 33	Amend Statute

**Section 5**

**Department of Aging and Disability Services  
Rider Highlights - Senate**

**Deleted Riders (Original Rider Number)**

- 15. Limitation on State Supported Living Center Strategy Transfers – Rider not needed given edits to Rider 9, Limitation: Medicaid Transfer Authority
- 20. Unexpended Construction Balances – Replaced by new rider #34
- 21. MR Residential Placement Options – Rider language is in statute
- 22. Expenditures on Bond Homes – New Article II Special Provisions section on Rate Limitations and Reporting Requirements eliminates the need for this rider
- 29. Services under a 1915c Waiver – Promoting Independence initiative (in statute) accomplishes intent of rider
- 30. Services under HCS Waiver Program – Promoting Independence initiative accomplishes intent of rider
- 31. Promoting Community Services for Children – Promoting Independence initiative accomplishes intent of rider
- 35. Elimination of the Consolidated Waiver Program – Program has been eliminated
- 37. Program of All-Inclusive Care for the Elderly (PACE): Limitations – Merged with DADS Rider 9
- 38. Unexpended Balances: General Obligation Bond Proceeds – Replaced by new rider #34
- 41. Reporting Abuse/Neglect/Exploitation Incidents at All State Supported Living Centers – Performance measures added in fiscal years 2012-13 to collect this data
- 42. Unexpended Balance Authority for SAS/CARE Consolidation Project – Rider’s purpose was to carry FY 2010—11 appropriations into FY 2012—13
- 43. Reshaping the System for Providing Services to Individuals with Developmental Disabilities – Statute prohibits the agency from closing a state supported living center without legislative approval and the provisions of the rider have been completed

**Section 5**

- 44. Department of Aging and Disability Services Medicaid Waiver Programs – Rider conflicts with DADS Rider 34, Limits for Waivers and Other Programs
- 45. MR Community Services Funded through Medicaid – Provisions of the rider have been completed
- 46. Attendant Care Services for Persons Enrolled in Community-based Alternatives – Provisions of the rider have been completed
- 47. Facility and Community-based Regulation – Assumes business process improvements have been completed
- 48. Home and Community-based Services (HCS) Foster Care Rates – Provisions of the rider have been completed

**Modified Riders (Original Rider Number)**

- Multiple Updated references using person-first language as follows:
- Mental Retardation (MR) > Intellectual Disability (ID)
  - Intermediate Care Facility for Persons with Mental Retardation > Intermediate Care Facility for Individuals with Intellectual Disabilities
- 9. Limitation: Medicaid Transfer Authority – Added a(3) to incorporate Rider 37, Program of All-Inclusive Care for the Elderly (PACE): Limitations, changed a(5) to limit transfers between A.7.1, ICF/IID and A.8.1, SSLCs, added notification for transfers into Medicaid waiver strategies (section d.)
  - 14. Nursing Facility Beds for Medicaid Eligible Veterans – Removed directive for agency to change its rules
  - 16. State Supported Living Centers: Proportionality of Funds – Limited to part a. Proportionality of Funds. Deleted Quality Assurance Fee (QAF) since recommendations only use QAF in A.7.1, ICF/IID
  - 18. Disposition of Construction Appropriation Related to Intellectual Disability – Modified rider to account for policy change and person-first language
  - 32. Appropriation: Quality Assurance Fees – Added informational listing of QAF revenue appropriated in the Act, converted notification requirement to permission requirement for revenue above the Biennial Revenue Estimate
  - 39. Interest List Reduction – Modified terminology to be consistent with agency’s use of “interest” lists

**New Riders**

- NEW 31. Person-centered Care Pilot Project for Nursing Facilities – See Performance Review and Policy Report Highlights
- NEW 32. Intellectual Disability Community Services: Limitations – Limits transfers from strategy A.4.2, ID Community Services

**Section 5**

NEW 33. Contingency for Standard Assessment Tool – See Performance Review and Policy Report Highlights

NEW 34. Unexpended Balances Bond Proceeds – Replaces Riders 20 and 38 with updated language regarding unexpended balances for bonds

**New Riders – Special Provisions**

NEW 45. Money Follows the Person Demonstration – Adds reporting requirements and limitations on the use of General Revenue funds “freed up” by federal match

NEW 46. Balancing Incentive Program Reporting – Adds reporting requirement for monthly expenditures eligible for enhanced federal match
