**Fiscal Programs - Comptroller of Public Accounts  
Selected Fiscal and Policy Issues - Senate**

1. **Mixed Beverage Tax Disbursements.** Recommendations of \$492.9 million in General Revenue funds in Strategy A.1.2, Reimburse – Beverage Tax, reflect the Comptroller’s estimate for the disbursements of mixed beverage tax revenues to cities and counties. The disbursements are required by Section 185.051 of the Tax Code. The section requires no less than 10.7143 percent of revenues from the mixed beverage gross receipts tax and mixed beverage sales tax to be disbursed to counties where the receipts were collected and an additional 10.7143 percent of revenues to be disbursed to incorporated municipalities where the receipts were collected. Recommendations direct the Comptroller to reimburse at the minimum rate required by statute (i.e. 10.7143 percent).
  
2. **Unclaimed Property Claim Payments.** Recommendations provide an estimated total of \$550 million in General Revenue funds for payment of unclaimed property claims, reflecting a decrease of \$25 million from the current biennium. Payment of unclaimed property claims is required under Section 74.501, Property Code. Unclaimed property remitted to the state by businesses, financial institutions and governmental entities typically come in the form of forgotten bank accounts, insurance proceeds, uncashed checks, security deposits and utility refunds. While payment of claims generally increase year to year, the agency is estimating a decrease in the upcoming biennium. According to the agency, the agency’s outreach efforts and claim processes have not changed to account for a decrease in claims; the payment of claims is citizen-driven.
  
3. **Disabled Veteran Assistance Payments.** Recommendations provide a total of \$20 million in General Revenues funds for payment of disabled veteran assistance payments to qualified cities and counties, reflecting an increase of \$13.5 million from the current biennium. Pursuant to Section 140.011, Local Government Code, certain cities and counties are entitled the payments. To qualify for a payment, a local government must be a municipality adjacent to a U.S. military installation or a county in which a U.S. military installation is wholly or partially located. Additionally, the municipality’s or county’s amount of lost property tax revenue from the 100 percent or totally disabled veteran residence homestead exemption under Section 11.131, Tax Code, must be an amount equal to or greater than 2 percent of the local government’s general fund revenue. The qualifying local government is entitled to a payment equal to lost property tax revenue less one percent of the entity’s general fund revenue. Recommendations reflect the agency’s request and estimate for payments. The table below identifies the payments made to cities and counties from fiscal year 2016 to fiscal year 2018. According to the agency, the estimated increase in the 2020-21 biennium is driven by an increase in home values.

4. **Texas Guaranteed Tuition Plan.** The Texas Guaranteed Tuition Plan, also known as the Texas Tomorrow Fund, is expected to run out of cash and switch to a pay-as-you-go in fiscal year 2020. Article 7, Section 19 of the Texas Constitution provides authority for the Comptroller to pay benefits “out of the first money coming into the state treasury in each fiscal year not otherwise appropriated by the constitution”. Because the plan is guaranteed by the State and does not require an appropriation for payment of benefits, the Comptroller has not requested funding for this purpose and has recognized an estimated transfer of \$211.0 million in the 2020-21 Biennial Revenue Estimate. The table below identifies the General Revenue estimated to be required in each fiscal year for the duration of the remaining contracts of the plan. The estimates are based on the plan’s fiscal year 2018 Actuary’s Report on Program Soundness.

Summary of Federal Funds (2020 - 21)

**Total \$26.8M**

Funds for financial & technical assistance to increase energy efficiency & reduce energy consumption

Funds for environmental remediation at Department of Energy Pantex weapons plant

Funds to ensure the safe transport of radiological waste to storage facilities

**Selected Federal Fiscal and Policy Issues**

The State Energy Program has two components: (1) the formula grant to promote energy efficiency, and (2) the LoanSTAR Revolving Loan Program, which provides energy efficiency loans to state and local entities on a reimbursement basis.

The State Energy Program reflects a decrease of approximately \$1.0 million in the 2020-21 biennium compared to 2018-19.

This change reflects an agency decision to decrease program expenditures from the federal grant due to an anticipated decrease to the state's federal award in the 2020-21 biennium.

Rider Highlights - Senate**

**Modification of Existing Riders**

9. **Oil Overcharge Settlement Funds.** Recommendations update estimated revenue and estimated depository interest allocated for programs specified in the rider based on recommended funding levels out of the General Revenue-Dedicated Oil Overcharge Account No. 5005 in Strategy B.1.1, Energy Office, and Strategy B.1.2, Oil Overcharge Settlement Funds.
10. **Department of Energy (DOE) Federal Funds.** Recommendations update Federal Funds amounts anticipated for the Pantex and State Energy Programs to align with recommended funding levels included in Strategy B.1.1, Energy Office, and Strategy B.1.3, Federal Funds.
15. **Disabled Veteran Assistance Payments.** Recommendations revise amounts referencing appropriations for disabled veteran assistance payments to align with recommended funding levels in Strategy A.1.13, Disabled Veteran Assistance Payments.
18. **Report on Local Continuing Education Allocations.** Recommendations revise rider to reference the program distributions to local law enforcement agencies as “allocations” rather than “grants”. The distributions are required by statute and are based on statutory formula in Section 1701.157, Occupations Code.

**Deleted Riders**

9. **Investment Fund Manager.** Rider pertains to funding of the Safekeeping Trust Company. The company is funded through investment earnings and fees rather than appropriations. Rider is not needed.
