Agency Budget and Policy Issues and/or Highlights

Texas A&M Engineering Experiment Station (TEES) conducts research, provides continuing education, and develops technology to assist industry and the engineering workforce. TEES performs engineering and technology research on water, defense, energy, manufacturing, and the environment across the state of Texas.

Historical Funding Levels (Millions)

Selected Fiscal and Policy Issues - Senate

1. **Infrastructure Support.** Funding to Texas A&M System agencies for infrastructure support within Brazos County is calculated using the General Academic Institutions' Infrastructure Support formula rate. Infrastructure support funding totals $11,553,930 for the biennium, an increase of $298,302 from the 2020-21 biennium.

2. **Five-Percent Reduction.** As a part of the 2020-21 biennium five percent budget reductions, the agency submitted General Revenue reductions totaling $4,376,843. Recommendations for the 2022-23 biennium continue the implementation of these reduced funding levels, while allowing for the transfer of funding between strategies reflected in the agency's base request (see Appendix A). The 2020-21 biennium five percent reductions as submitted by the agency are as follows:
